Don't Strike Matches— Buy an *Ingersoll* Radiolite

Watches that show time only in the light are part-time watches. They're useless in a dark room; useless after bed-time; useless in the early morning; useless wherever it's dark. And often there's no convenient light.

Ingersoll Radiolites are useful in the light and in the dark. They are real luminous dial watches—they contain real radium, which keeps them glowing in the dark as brightly as ever for twelve years or more.

Only Ingersolls are Radiolites, and they all have "Ingersoll" name on dial.

There is an Ingersoll Model for everyone, from 60/- down to 9/-

The following are specially recommended:—

Ingersoll Triumph Plain Dial	9/-	Ingersoll Wrist Radiolite	21/-
.. Radiolite	12/6	.. Reliance, Snap or	
.. Junior Plain Dial	15/-	.. Screw Cases	21/-
.. Eclipse Radiolite	17/6	.. Waterbury Radiolite	25/-

Sold by thousands of shopkeepers throughout the Kingdom; but if your dealer cannot supply you, any Ingersoll model you wish will be sent post free upon receipt of price.

Handsome Illustrated Catalogue sent post free upon request.
