

(4) Policies Toward Productivity and Employment. While relying on market signals as a guide to efficient economic decisions, we will take measures to improve training and mobility of our labor forces, with particular concern for the problems of youth unemployment, and promote continued structural adjustment, especially by:

-- Enhancing flexibility and openness of economies and financial markets.

-- Encouraging research and development as well as profitability and productive investment.

-- Continued efforts in each country, and improved international cooperation, where appropriate, on structural adjustment measures (e.g., regional, sectoral, energy policies).

IV. We shall continue to assess together regularly in this framework the progress we are making, consider any corrective action which may be necessary from time-to-time, and react promptly to significant changes.
