Transportation

There are two major seaport facilities in Trinidad. One is located at Port of Spain and the other along the west coast at Point Lisas. The port facility in Tobago is located at Scarborough. The facility in Port of Spain handles container, general cargo, dry bulk, break bulk and passenger cruise ships. There are currently 11 berths and turn around time is approximately two days. There is also extensive storage space and merchandise handling equipment and dry dock facilities available. Service is provided by 19 shipping lines to nearly all parts of the world. There is no rail system in Trinidad and Tobago.
