

5. The Contracting Parties require that the designated airlines of Canada notify the aeronautical authorities of El Salvador of air services to be operated between third countries and Points in El Salvador ninety (90) days in advance or such lesser period as may be authorized by the aeronautical authorities of El Salvador and each of the point may be changed on ninety (90) days' notice to the aeronautical authorities of El Salvador or such lesser period as may be authorized by the aeronautical authorities of El Salvador.
6. (1) Subject to the regulatory requirements normally applied to such operations by the aeronautical authorities of El Salvador, each designated airline of Canada may, at its discretion, enter into cooperative arrangements for the purposes of:
- (a) holding-out the agreed services on the specified routes by code-sharing (i.e. selling transportation under its own code) on flights operated by any airline or airlines of Canada, of El Salvador, and/or of any third country or third countries; and/or on any surface transportation providers; and/or
 - (b) carrying traffic under the code of any other airlines that have been authorized by the aeronautical authorities of El Salvador to sell transportation under their own codes on flights operated by the designated airline of Canada.
- (2) The aeronautical authorities of El Salvador may require all airlines involved in code-sharing arrangements to hold the appropriate underlying route authority.
- (3) The aeronautical authorities of El Salvador may require that code-sharing services by each designated airline of Canada involving transportation between the Points in El Salvador be restricted to flights operated by airlines authorized by the aeronautical authorities of El Salvador to provide services between the Points in El Salvador. All transportation services between the Points in El Salvador under the code of each designated airline of Canada shall only be available as part of an international journey.
- (4) The aeronautical authorities of El Salvador shall not withhold permission for code-sharing services identified in Note 6 paragraph (1) (a) by the designated airlines of Canada on the basis that the airlines operating the aircraft do not have the right from El Salvador to carry traffic under the codes of the airlines designated by Canada.
- (5) The aeronautical authorities of El Salvador shall require that all participants in such code-sharing arrangements ensure that passengers are fully informed of the identity of the operator and the mode of transportation for each segment of the journey.
