Page 2 of letter -

Paragraph 1 - It is extremely difficult to change German.

Paragraph 2 - A serious question, which is fully considered in the "Recommendations" of the report.

Paragraph 3 - Students could, if they were permitted, (in our new schedule) take Physics 1, Chemistry 1, Botany 1, Geology 1, Physiology 1 and Zoology 1 all in the same year, -- as well as the new "Conjoint Course" in Botany - Geology - Zoology. This is the strongest feature of the new 1st year time table suggested.
