

to prevent the transfer of the Forest Products Laboratory to Ottawa being made at the present time.

It is very important in connection with the new Chair in Industrial Chemistry that we should have this laboratory remain where it is, and I am sure that the pulp and paper interests would back up any action to keep the laboratories in Montreal, seeing that when it once becomes part of the Civil Service ^{in Ottawa} they can no longer take an efficient interest in the movement as they otherwise might be able to do if it remained in Montreal.

I remain,

Yours very sincerely,

Frank D. Adams
