Export Demand Big Factor-Corn Also Scored an Advance.

CHICAGO, May 4.-Foreign buying ere had an important bullish influence day on wheat. In the end the market was easy, but %c to %c net higher. Corn

In the wheat trade it was virtually conceded on both sides that the situa tion was a case of phenomenal harves promise in this country for 1914, agains fairly bullish conditions thruout the res of the world. Considerable significance therefore, was attached to the fact tha

therefore, was attached to the fact that purchasing on foreign account today, especially in the September option, attained large proportions. Besides, world's shipments were light; the supply afloat was the smallest since 1902; Hungary and France reported serious crop damage, and there was a decided falling off in the domestic visible stock.

Corn in Demand,

Delay in Argentine corn shipments, a condition due to heavy rains starting afresh, made the corn market here strong. Argentine damage estimates were raised ten per cent. It was also pointed out by the bulls that the former big stocks here had been more than cut in half and were now down to normal. Some of the consequent upturn in prices, tho, disappeared as a result of profit-taking in the last hour.

Oats at the outset were firm with other grain, but the good outlook for the growing crop led to realizing sales by holders, and brought about a reaction.

Provisions lost much of an early advance. The duiness of the cash trade offset to some extent the effect of grain strength and of the lighter run of hogs west.

It was learned today also that the French majority of trustees would, in the event of the board being compelled to live up to regulation 17, make every school in the city a bilingual institution, replacing all the Irish teachers who do not speak French. At present negotiations are under way with an order of Irish priests to come to Ottawa and take charge of the boys schools under a year's permit from the department, giving them time to write on the qualifying examinations.

MEMBERSHIP HAS HONORABLE COURSE MORE THAN DOUBLED

at Annual Meeting of Royal Canadian Institute.

In the opinion of Lord Rochdale, a DR. KENNEDY HONORED

With Address and Valuable Set of Volumes.

That the Royal Canadian Institute has more than doubled its membership during the past year was the anouncement made in the report presented by Preshident Frank Arnoldi. K.C., at the annual meeting held in the Institute, 198 College street on Saturday evening. During the year, said Mr. Arnoldi, 271 new members were enrolled making the total membership 458. The report also made allusion to the recent special meeting at which the title Royal had been RAILWAY FARE PAID confered on the Institute by Sir John Council of D.R.A. Adopts Innovation That Will Please
Marksmen.

OTTAWA, May 4.—The council of the Dominion of Canada Rifle Association has decided, for this year, to pay the first-class railway fares of all members of the Bisley team, from their homes to Montreal and return. It has been the custom in the past for all members of the team to pay their own-railway expenses to the place of mobilization.

Confered on the Institute by Sir John Gibson, acting for H.R.H. the Duke of Connaught and emphasized that this public recognition would do much towards assisting the Institute work. During the past session, twenty-two regular meetings were held in the Physics building of the University at all of which the attendance had been of a gratifying nature. Mr. Arnoldistated that it was the intention of the Council to continue the publication of the Year Book and thus make the public acquainted with the work and objects of the Royal Canadlan Institute. He urged upon the mem-
