THE SINGLE LEVER SULKY,
KING OF THE TURF.

OVER
10,000
MADE AND
SOLD ANNUALLY
All Iron
and Steel.

DRAWS LIGHTER
THAN THE
HAND-PLOW.

ONE LEVER ONLY REQUIRED, and that is only used to regulate the depth of plowing and to level the frame, as the plow is raised out of the ground automatically by simply touching a spring.
THE FRANK WORK IS ALL OF IRON—Iron Beam, Iron Wheels; strong and durable in construction, and of lighter draft to the team (carrying the driver on an easy seat, where he has full view of work and control of team) than the ordinary hand-plow.
ITS SUPERIOR WORK over that done by the ordinary hand-plow will pay its cost in a single season, by reason of the uniform depth attained, and the freedom from unplowed spots, as the plow is locked firmly in the ground and can not be thrown out by hard spots or rank growth of weeds or vines.
TWENTY PER CENT. MORE WORK can be accomplished daily than by any other system.
