

Dome and Dome Ex. Lead Market in Day of Great Activity

Mining Market Fairly Boils Old-time Enthusiasm Shown

Porcupine Issues Score Sharp Advances in an All-round Buoyant Session—Hollinger the Only Weak Spot.

World Office, Tuesday Evening, Nov. 14. There was a good deal of old-time enthusiasm in the mining exchanges today, the market in so far as the Porcupine issues were concerned, displaying more acumen than in a long time, and prices recording sharp advances in most of the general favorites.

Trading turned decidedly more active, the speculative movement showing a definite broadening tendency, and a strenuous demand for the usual leaders being evolved. It was noteworthy that there was no let-up in the demand for the "big bull" in the "floor" that things were looking better than in a long time.

Buoyancy Dispersed Thru List. The buoyancy was fairly well disseminated thru the list, and advances were so widespread as to be discernible almost everywhere. The big issues, the stock resuming its upward trend, and scoring a sharp gain at 55, an advance of a couple of dollars a share. The bulls were inspired by the optimistic utterances of Managing Director Monell, concerning the results of the drilling on the property.

Hollinger did not do so well as its sister issue, the shares recording a decline from yesterday's high point. The range for the day was \$10.35 to \$10.12 1/2, with the close at the latter figure. Real sold at \$3, but was back again at the close for the usual market.

Market Boiling Over. The market in so far as cheaper issues were concerned fairly boiled over, with Dome Extension, Vipond and Crown Chartering the features. Dome Extension sold up 2 points to 75, on a sustained buying demand of better calibre than has been witnessed for some days.

Vipond moved up to 50 1/2, a gain of nearly two points. Earning for instance, account was again mentioned as responsible for the advance, but the announcement that the company would be one of the first to open a new mill in the camp had more to do with inspiring the outside following than anything else. The close was strong, at 50 1/2 bid, 50 1/2 asked.

Crown Chartering was one of the most active issues for the day, and an advance of over a point was piled on top of the recent bulge. A new record figure for the movement was established at 50, and that price was bid at the close, a strenuous demand being still in evidence.

Other strong points were Foley-O'Brien, which sold up 10 points above last week's 77, and Pearl Lake, which gained a fraction at 48.

The market throughout was in prime condition and set for a more bullish than for some days. Traders are predicting that a broadening in the public speculative movement is imminent, and look for higher prices practically thruout the list.

LAURENTIAN MINE SOLD. The famous Laurentian mine, in the Manitowish region, is now the property of E. B. Hedges, a mining man of Boston, Mass., who on Saturday returned from a trip to Sturgeon Lake. He proposes to go ahead with the development of the Laurentian mine during the winter, and is now arranging to ship additional machinery to the mine just as soon as the lakes are frozen hard enough to permit freight across the ice route.

PORCUPINE BULLETIN. PORCUPINE, Nov. 14.—(Special.)—Heavy freezing set in following the thunder and rain storm of Saturday night and Sunday morning, and a half inches of water fell. With the mercury down below zero this morning, ground frozen under one inch of snowfall.

NO CHANGE MADE. Mr. Halston Retains Complete Management of United Porcupine. Mr. P. Halston denies emphatically that any arrangement has been made with T. S. Jenkins, at present manager of the Eldorado, to take charge of the work on the United Porcupine.

Mr. Halston states that he is superintending all the development himself, and that no change from this is contemplated by the directors of the company.

Crown Reserve Dividend. Crown Reserve has declared the regular monthly dividend of 3 per cent with a bonus of 3 per cent. It is payable Dec. 15 to holders of Nov. 30.

Porcupine's New Hotel. It is announced that the big new hotel which is in course of erection on South Porcupine Centre Township is to be called the "Commauch."

BIG MINING DEAL. Sturgeon Lake Property Passes to Toronto Interests. Another big mining deal, in which Toronto capitalists have played a prominent part, has been put through the Sturgeon Lake mining district. The holding has been purchased by a syndicate headed by M. L. Foley, partner of the Foley-O'Brien Mining Co. of Porcupine, and W. R. Leyson. The price paid for the property was \$20,000. Work has already been started on the property. Ninety men are at present employed and machinery is going in every day.
