UITE a difference between the days when grandmother slung the big black pot over the crane in the old-fashioned fireplace, and now, when the modern housewife does her cooking on an electric range. What a world of labor-saving comfort there is in the Electric Glad Iron, as compared with the drudgery of the old-fashioned sad-iron; and then how marvellous seems an Electric Washer run by a small motor which washes and rings the clothes quicker and better than skilled housewife herself can do it, to say nothing of the saving in the expenditure of strength, time and fuel. These are some of the thoughts that are apt to pass through your mind as you watch the demonstra-

It is a fact that electricity owes much of its practical comfort and economy to

Our demonstration shows also how easy it is to prepare light refreshments, or even a meal, by the aid of the Electric Chafing Dish, Coffee Percolator, Samovar, Toaster, Disc Stove, Griddle or Waffle Iron.

Every housewife, bachelor and bachelor maid, flat dweller and student ought to see this demonstration. By a few minutes, spent before the exhibit, you'll not only find yourself astonished at the real comfort, charm and convenience that electric service contributes to the home, but you will also gain a good idea/ of the vast strides that have been made in the progress of domestic science through the help of electricity.
