TORONTO BRITISH CROP BAD;

FRUIT ALSO FAILS Conference With Hoover in London Will Discuss

Situation. Ottawa, July 16.-The season of anxiety with regard to the food supply of the United Kingdom and the allied nations is not yet over. A conference of the food controllers of Great Britain, France and Italy with Herbert Hoover, United States food administrator, will be held on July 22 in London, when the situa-

tion will be fully discussed. Unfavorable weather has been causing concern about the British home-grown crops, and early estimates will have to be modified. early estimates will have to be modified. The labor shortage overseas is also acute. Some of the difficulties and problems are indicated in the following cable received tonight by the Canada Food Board from John R. Clynes, the new British food controller: "British agriculturists are seriously concerned about drought which has checked the growth of wheat here for six weeks, particularly on light soils. Barley and oats have also suffered, and even potatoes have been retarded by cold weather and lack of rain. Luckily the spell of unfavorable weather has now broken and rain is plentiful, but nevertheless it looks as if the early optims m about possibilities of the wheat crop in the United Kingdom will have to be modified, owing to the difficulties of newly-broken ground and lack of labor. It is true that women and children are

be modified, owing to the difficulties of newly-broken ground and lack of labor. It is true that women and children are being rapidly recruited for the forthcoming harvest, but even with the help of urban holiday workers and German prisoners farmers here are skeptical whether they will be able to get in that which they have raised.

Owing to early frosts and insect attacks on fruit the food controller is now also battling with an utterly unforseen shortage of jam for our armies and civilian population.

"There is still a shortage of cheese, and lard has just been formally rationed. "Hogs, too, have not been raised as rapidly on this side of the Atlantic as was hoped, owing to the abnormally high prices demanded for breeding sows and weanling pigs. Such is the situation despite the great outburst of municipal enterprise in connection with hog raising. "Generally the food situation in the United Kingdom is improved, but the season of anxiety is not yet over. The food controllers of all the allied countries will meet Mr. Hoover in conference on July 22." meet Mr. Hoover in conference on July

PRISONERS AGREEMENT

DIFFICULT TO FULFIL London, July 16.—Speaking at the final meeting of the prisoners conference yesterday after the agreement, held at The Hague, Lord Newton pointed out that altho the agreement had been so difficult, it was still more difficult to carry out the provisions owing to the peculiar circumstances, the chief of which was the transport difficulty, as the Germans held by Britain were scattered thruout the globe. He hoped, however, that the provisions would be liberally interpreted by both parties, but remembering that any difficulties arising would react on the prisoners themselves. prisoners themselves.

Dr. G. C. Creelman acted as chairman at the luncheon, and Mayor New-

ers of the province.
In introducing Mr. Henry, the recently appointed minister of agriculture, Dr. Creelman stated that it was generally conceded that the position
was now filled by the proper man, with
a business and agricultural training
admirably suited for such an office.
Mr. Henry stated it was his first opportunity to meet the district representatives as a body, and he hoped to meet them at the college conference and learn what is being accomplished by them and their desire for future

ITALIANS EXPECT ANOTHER SMASH

Allies Improve Lines in Preparation for Next Attack.

Ottawa, July 16.—The following is a review of operations on the Italian front cabled by the imperial ministry of information and issued here by the director of public information. On the Italian front most suc-cessful operations were carried out cessful operations were carried out both on the northern front and on the lower Plave. After four days steady fighting the 23rd Italian Corps cleared the whole of the delta between the old and new branches of the river where Austrian troops had been established since November last. The Austrians offered strong resistance which only increased their losses and the Italian line is now shortened and strengthened and the Austrians have re-held twenty miles behind Venice which is practically safe from artillery fire.

Up in the mountains local successes gave the Italians several points which will be of the greatest use supposing the Austrians renew the offen-sive. It seems likely they will do so sive. It seems likely they will do so from the appointment of the German general, Von Below, to command the Austrian army on the Italian frontier, which sets the seal of Austria's slavery. It is impossible to prophesy his intentions, but it is thought his plans probably involve a heavy offensive. This is hardly possible either soon or even without considerable German aid.

aid, The victorious Italian army is now in the highest feather and General Diaz is using all opportunities in up-building his defence positions.
