Nervousness and sleeplessors are usually due to the fact that the nerves are not fed on properly nourishing blood; they are starved nerves. Dr. Pierce's Golden Medical Discovery makes pure rich blood, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs in oil. In this way you feel clean, strong and stremuous—you are toned up and invigorated, and you are good for a whole lot of physical or mental

good for a whole lot of physical or meuta-work. Best of all, the strength and in-

rease in vitality and health are lasting.

The trouble with most tonics and medicines which have a large, booming sale for a short time, is that they are largely composed of alcohol holding the drugs in solution. This alcohol shrinks up the red

ecreased. Dr. Pierce's Golden Medical

has the unanimous approval and endorsement of the leading medical authorities of all the several schools of practice. No other medicine sold through druggists for like purposes has any such endorsement.

The "Golden Medical Discovery" not only produces all the good effects to be obtained from the use of Golden Seal root, in all stomach, liver and bowel troubles, as in dyspepsia, biliousness, constipation, ulceration of stomach and bowels and kindred ailments, but the Golden Seal root used in its compound-

Mr. Tilley then Went into agents' contracts. He wanted to know if the Excelsior had any contract by which the agent received commission after the contract was terminated.

"Under the terms of our contract the

agents' renewals cease when the con-tract is terminated. The increase in tract is terminated. The increase in commission during past five years would be about sixty per cent."

Counsel then went into the salary list. President David Fasker receives \$2000 per year, Dr. Ferguson, medical referee, \$1200; General Manager Marshall, \$2500, and the next salary in head

office was \$1000.

Mr. Tilley said that there were no extravagances in head office salaries, and that the list needed no further and that the list needed no further comment. He brought out the fact that the Excelsior paid its solicitors, Beatty, Blackstock, Fasken and Riddell \$300 a year for general advice. The company carried a risk as high as \$7500; anything over that was reinsured. This was gradually increased

Recouped by Directors.

To avoid an impairment of capital, the call of 6 per cent. bonus was made. Mr. Fasken paid over the money himself and the other directors recouped him. He had been holding fifteen shares, but in November, 1898, he became owner of 698 shares. In 1900 he possessed 1500 chares, and at the present time he controls 1896 shares out of a possible 5000 shares.

He and Mr. Marshali went to Ottawa and Owen Sound, where meetings of the Excelsior shareholders were held to explain the position of the company and make an offer to anyone that wished to sell his stock; it would be bought in by Mr. Fasken and other directors. The meetings were unanimous on the six per cent. bonus, and any who were dissatisfied transferred their stock to Mr. Fasken at \$15.00 per share.

Counsel then took up a 6 per cent. Call issued in 1898. This was after the company had started in the "industrial" branch of the business, and Mr. Fasken freely told of his opposition to this branch because he thought that a company could not successfully carry on both ends, the "ordinary life" and the object of insuring children. This branch was given up because it took too much money to develop the "industrial" at the expense of the "ordinary life." At the time the case was made the Excelsior was establishing the company at present did business in all the previnces, but not outside of the Dominion.
