epitomized statement of Toronto's assets and advantages will do some good if it reaches a sufficiently large outside constituency. In order to obtain the necessary circulation, Ald. Lamb has made arrangements whereby merchants can have the page of "Facts about Toronto" printed on the back of their letter paper at a nominal rate. Ald. Lamb's proposal is a sensible one, and every Torontonian who has any correspondence worth mentioning ought to fall in with the idea. Communicate with Ald. Lamb on the submunicate with Ald. BECIPROCITY IN HOSTILITY.

Most magnificent is the Reciprocity Treaty that the carpet-baggers are bringing back with them from Washington. Here are some items of the new tariff which the Republican members of the Ways and Means Committee have adopted, and which will soon be in force against Canada: The duty on Canadian hay going into the United States will be \$4 per ton. Barley will be taxed 30 cents a bushel and flaxseed 30 cents per bushel. The McKinley tariff on eggs, 5 cents per dozen, is to be restored, and poultry will be taxed 20 per cent. Next to the machines that have been installed at Niagara Falls these are the largest dynamos that have ever been made. They are being manufactured in Montreal.

ADVERTISING TORONTO.

ADVERTISING TORONTO.

Ald Lamb has devised a cheap and effective method of advertising Toronto. He utilizes the back of the letter paper used by the Board of Control for presenting a concise statement of facts in regard to the city. In this statement the reader is given statistics of our population, schools, universities, shipping, commerce, churches, postoffice, theatres, etc. This epitomized statement of Toronto's aspending the statement of the developing 3000 horse power. Next to the machines that have been installed at Niagara Falls these are the largest dynamos that have ever been made. The property. The Toronto papers have from time to time reported rich strikes in this district, which promises to rival Petrolea as an oil producer. Oil operators from different parts of the United States and Canada are now in the territory and 40 drilling rigs are said to be clearing \$200 a day from half a dozen wells. Mr. Fred Diver, manager of the Central Press Agency, Toronto, is president of the company, and Mr. E. H. Perkins of Cieveland, Ohio, a practical oil operator, is local manager. The company offers for sale a limited number of shares at par. For particulars apply to S. J. Sharp, 78 Yonge-street. Attention is called to the advertise

These are some of the principal items in the agricultural schedule. The rest of the tariff is being framed on the same kind of a reciprocity basis. Another evidence of our neighbors desire to make a reciprocity treaty with us is their proposed alien labor legislation. Canadian workmen are to be

Mills Yesterday.

Samuel Huntley, an employe of the McDonell rolling mills, Indian-road, met with accidental death yesterday afternoon in a peculiar manner. He was working at the risk, placing the red-hot bars in position as they were forced from the machine for a moment, a bar coming from the rolls while looking away from the machine for a moment, a bar coming from the rolls purposed the hot iron with hoth hands and burned through his leg near the knee. He grasped the hot iron with hoth hands and burned the fiesh to the bone. Dr. Aylesworth was called, but the suffering man was too far gone for human aid, and he died in less than half an hour.

Huntley was a married man, 47 years of age, and lived at 27 Lansdowne-avenue. He leaves a widow and three children. The body was taken to Undertaker Craig's, 1265
