NOTICE TO CREDITORS—NOTICE IS hereby given, pursuant to the statute in that behalf, that all persons having claims against the estate of Joseph Gray, late of the Township of Westminster, in the County of Middlesex, farmer, who died on Oct. 29, 1918, are to leave with The London and Western Trusts Company, Limited, administrator of the estate of the deceased, on or before Feb. 12, 1919, full particulars of their claims, and of the securities (if any, held by them. And that after Feb. 12, 1919, the administrator will proceed to distribute the assets of the estate among the persons entitled thereto, having regard only to the claims of which notice shall then have been received, and will not be liable for the assets or any part thereof, to any person of whose claim notice shall not have been received at the time of distribution. Fraser & Moore, solicitors for administrator. J. 16, 23, 30.

IN THE MATTER of the estate of Martha Collier, late of the City of London, in the County of Middlesex, spinster, deceased.

NOTICE IS HEREBY GIVEN, pursuant to Statute I. Geo. V., Chap. 28, Sec. 55, that all creditors and others having claims against the estate of the said Martha Collier, who died on or about the 5th day of January, A. D., 1919, at the city of London, are required on or before the 22nd day of February, A. D., 1919, to send by post prepaid, or deliver to the Executors of the deceased, their Christian names and surnames, addresses and description with full particulars of their claim a statement of their account and the security if any held by them. After the last above-mentioned date the executors will proceed to distribute the assets of the deceased, and will have regard only to the claims of which they shall have written notice, and will not be liable for the assets or any part thereof to any person whose claim has not been received by them at the time of distribution.

Dated at London, this 28th day of January, A. D., 1919.

A NEW BLOOD-FOOD HAS BEEN DISCOVERED THAT WORKS WONDERS

Said To Put New Life Into People That Are Rundown.

For years doctors have been searching for a combination that would enable them to inject into thin blood the elements it lacked. This can now be done, and any weak-blooded person can quickly be made strong and well.

Already a small army of ailing people has proved the merit of taking after each meal with a sip or two of water, two chocolate-coated Ferrozone Tablets. This is easily done, and even one week's use of this wonderful blood-food will prove how nourishing and strengthening and flesh-building the treatment is.

Just think of it—Ferrozone uplifts the entire nervous system, renews the blood, makes it rich and red—gives the sort of aid that's needed in throwing off weakness and languor.

Tens of thousands enjoy the advantages of renewed health through Ferrozone;—if you'll only use it, you'll surely grow strong too; its beneficial action is noticed even in a week. You see it goes right to work, removes the causes of the trouble and then quickly makes a cure.

For those who sleep poorly and have nervous apprehensions, Ferrozone is a boon; it is a specialist in such cases.

Where there is paleness, poor appetite and languor, Ferrozone makes the patient feel like new in a few days.

In tiredness, nerve exhaustion, spring fever and debility, the power of Ferrozone is known from coast to coast and universally used with grand results.

Let Ferrozone build you up, let it win you back to robust health—it will do so quickly if you give it the chance. Sold by all dealers. 50c per box or six boxes for $2.50. Remember the name Ferrozone.

Tenders Wanted

SEALED TENDERS addressed to the undersigned, and indorsed on the envelope, "Tenders for Construction of Two Reinforced Concrete Culverts in the Caradoc I. R., County of Middlesex, Ont.," will be received up to noon of the 27th day of February, 1919.

Plans and specifications may be seen at the postoffice at St. Thomas and London, Ont., also at the office of the Indian agent at Muncey, and upon application to the department at Ottawa.

Each tender must be accompanied by an accepted check on a chartered bank for 10 per cent of the amount of the tender, payable to the order of the undersigned, which amount will be forfeited if the person or persons tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for.

If the tender be not accepted the check will be returned.

The lowest or any tender will not necessarily be accepted.

The unauthorized insertion of this advertisement in any newspaper will not be paid for.

Items Of Interest to Everybody

Secrets of Health and Happiness

Chronic Leg Ulcers Now Quickly Cured By Science

By DR. LEONARD KEENE HIRSHBERG, A. B., M. A., M. D., (Johns Hopkins University.)

DR. HIRSHBERG

Those whose lower extremities needs must bear more than the average human burdens are often invaded by germs and microbes which may produce ulcers that may become chronic nuisances, difficult, if not impossible, to cure.

As bitter as gall and wormwood, with a perpetual thorn in his flesh, the victim does his utmost to heal his tormented fabric.

Almost any debilitating, constitutional trouble, such as fatigue, long hours of work, overweight, poor or faulty food, inflamed veins, carbuncles and compound fractures may start an ulcer of the skin or bone.

After these general causes have been corrected, and the diabetes, hardened arteries, high blood pressure and other remote connections have been relieved and cured, the immediate and direct local treatment must be brought into play.

The apparently incurable nature of some leg ulcers is due to the antiquated, traditional medical and surgical measures which are sometimes used in their treatment. Salves, unguents, ointments and greasy applications are still widely in use in some places, yet the unhealed ulcers is proof positive such methods are ineffective.

Ointments and fats really prevent the excreted poisons and fluids from leaving the afflicted area. Moreover, the healing tissues, called granulations, become flabby and anaemic if salves are applied.

What is really needed upon these lazy, indolent, resistant ulcers is some sort of osmotic pressure, an oxidizing element to excavate and burn out the poisons, germs, waste and discharges.

Method of Treatment.

The best results are now evidently obtained by the employment of rubberdam wet dressings with a mixture of the double oxide-nitrogen mineral which both stimulates the healing while it simultaneously absorbs from the ulcers the discharges and bacteria.

Not only does this method heal the ulcers from the deepest base upward to the surface, but it also has a powerful astringent action which promotes the healing of the skin with hardly the sign of a scar.

Some forty-five sufferers with leg ulcers have been healed within twenty days by this scheme; some of them had been years and months in duration.

Chronic leg ulcers, associated as they frequently are with varicose veins, are often incurable as long as the sluggish congestion of the stale blood and fluids remain to stagnate and decompose the leg tissues.

The precise fit of a combination of these nitro-oxide double minerals in a gelatinous base or vehicle, in addition to its healing powers, seems to stimulate the movement of congested lymph and venous blood from the leg. The rubber sheet, which contains the peroxide of nitrogen mineral, exerts an even pressure, which aids in expressing the congested blood from the leg.

Most treatments of chronic leg ulcers require the patient to keep the leg higher than the hips. He is thus unable to walk.

One of the essential features of this new treatment is that it is ambulatory; that is to say, the victim is not compelled to give up work and be confined to bed.

Cure Is Rapid.

Skin grafting, so necessary in many treatments of leg ulcers, is hardly ever needed in this new treatment, which promotes the covering of the healed ulcer with new cuticle. The delicate, invisible epithelial tissues is strengthened and hardened, and not washed away as fast as formed. The latter happens in most other treatments.

Dr. Edward Adams, surgeon of the New York Post-Graduate Medical School and Hospital, points out in a recent book on "Chronic Leg Ulcers," that the rapid and permanent cure of an ulcer is a matter of great importance. The patient afflicted with one is more or less incapacitated from work, liable to serious accidents, but has his very nature and earning power injured.

The muscles near an ulcer become matted together and shrunk. They waste away and contractures of the limb resembling a palsy may ensue.

The hinges and joints of the bones may become fixed and contracted, and the inactivity diminishes the powers of the other human structures to resist more serious diseases.

Answers to Health Questions

Y.: Q.—Kindly advise me what to do for nits.

2. Kindly advise me what to do to make my eyelashes and eyebrows thicker.

A.—These are the eggs of insects, lice, which attach themselves like glue to the hair strands. The insect is more easily destroyed than the nits. Wash the hair in equal parts of acetic acid and water, then brush the hair thoroughly. Repeat this several times on successive nights. Wash off with water.

2. A little white vaseline used on the eyelashes and brows will cause an increase in their growth.

F. A. M.: Q.—Kindly advise me what to do for pyorrhea.

A.—Vaccine injections of staphylococcus and streptococcus bacteria is very good for pyorrhea. Iodide of potash saturated in water and taken after meals is also very good. Start with 15 drops and increase a drop at a time until 35 drops have been taken. Also have a dentist scrape the teeth, and take five grains each of hexamethylenetramine and citrate of lithia in a little water every four hours.

J. S.: Q.—Kindly advise me what to do for enlarged pores.

A.—Massage the skin gently with a little of the following strong astringent that will serve to draw together the flabby skin, which has permitted the too wide opening of the mouths of the pores:

Rosewater	6 ounces
Elder flower water....	2 ounces
Simple tinct. benzoin.	½ ounce
Tannic acid	10 grains

A GRATEFUL READER: Q.—Kindly advise me what to do for sagging muscles.

A.—One type of individual with drooping flesh, flabby cheeks and relaxed muscles becomes so from lack of sunlight and open air exercise. Eating at night and loss of sleep plays a major role in this. Rubbing the face with ice for two minutes every other day is also a help. Vibrators add tone.

Dr. Hirshberg will answer questions for readers of this paper on medical, hygienic and sanitation subjects that are of general interest. He cannot always undertake to prescribe or offer advice for individual cases. Where the subject is not of general interest letters will be answered personally, if a stamped and addressed envelope is inclosed. Address ALL INQUIRIES to Dr. L. K. Hirshberg, in care of this office.

To-morrow's HOROSCOPE

By Genevieve Kemble

Restless conditions dominate this day, according to the peculiar positions among the reigning stars. The Neptune influence is strong and no fortunately so—the transit warning against deceit, treachery or intrigue. Those in employment should be particularly on guard against subtle or unfathomable undoing, though probably the bold and resourceful Mars, transited by Luna, will ingill the initiative necessary to vanquish all adversaries and uncover all conspiracies. Under a disconcerting intimacy between Venus and the disruptive and irregular Uranus, women are urged to be particularly conventional in their demeanor.

Those whose birthday it is should keep their business well in hand, protecting it from all angles. Changes await those in employment. A child born on this day will be fond of change, adventurous, impressionable and rather unconventional in inclination.

Good Night Stories

By Blanche Seivel

UNHAPPY PEGGY LEARNS THE WAY TO HAPPINESS.

Peggy sat on a great big stone out in the yard, rubbing her blue eyes with her chubby fists.

"What in the world's the trouble now?" asked a squeaky voice, and Peggy's little elfin friend from Make-believe Land hopped upon the stone at her side.

"Oh, dear, Happy Giggles!" exclaimed Peggy. "I'm so unhappy this morning. Everything goes wrong and there's no one to play with me and there's nothing to do!"

"Oh, me! Oh, my!" laughed Happy Giggles. "What if there isn't any one to play with you. Can't you find something else to do? Little girls should never be unhappy living in this beautiful world. You never see a Butterfly sitting on a blossom wondering what to do to be happy. No, indeed! If he can't find one Blossom Fairy at home he flies to another. If one Flower Fairy has no honey for him he flies away to another, and there's not a meadow-child happier than our little friends, the Butterflies. Why? Because they're always busy making the Flower Fairies happy."

"But there's no one to make happy when you have to play alone!" pouted Peggy.

"There You Are!"

Just then Peggy's little brother awakened from his nap and began to cry.

"There you are!" laughed Happy Giggles, with a merry twinkle in his funny little eyes. "Play with Brother and not only make him happy, but you'll be helping Mamma as well. Why, do you know, if every little girl in the world would just make one person happy each day in the week, by the time Sunday rolls around they could count seven happy people, and if they'd run and look into the looking-glass they'd be sure to find another happy face smiling back at them—for happiness is certainly catching."

"Well, I never thought of that before," laughed Peggy, her pout all gone. "And I bet there are few little girls that have thought of it."

"I dare say there aren't," replied Happy Giggles. "If they did, this old world would be twice as happy as it is. To be happy one must always keep busy. Idleness brings unhappiness, so does selfishness. So when there's no one to play with or when there seems nothing to do
