SELF-DENIAL DAY.

The special appeal to be made to all the people of St. John on King Albert's birthday this year is not alone for the Belgians, but for the men of the navy and our own returned soldiers. The funds raised will be divided into three parts for these three causes. The members of the Royal Standard Chapter, I. O. D. E., will have a little box placed in every home, to be collected immediately after Easter, and these silent messengers are expected to bring a generous response. It has been well said that many little Easter extravaganzas which in ordinary times cause no comment, might well be abandoned in this fateful year, in order that the people may show that they appreciate the sacrifices made by the Belgians, the men of the navy, and the soldiers who have fought so bravely and suffered so much.

Stomach Troubles

Due To Acidity

SAYS NEW YORK PHYSICIAN

A well-known New York physician in speaking of dyspepsia and its treatment says that so-called "stomach troubles," such as indigestion, which is a common ailment, and which is caused by acidity in the food contents of the stomach, causing the formation of gas and acids. Wind distends the stomach, and causes that full oppressive feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies large in the fermenting food, causing the formation of excess acid. Such fermentation is unnatural and may involve most serious consequences if not corrected.

To stop or prevent fermentation of

the food contents of the stomach and to neutralize the dangerous acid and make it harmless, a teaspoonful of blonnet's magnesia, probably the best and most effective corrector of acid stomach known should be taken in a quarter of a glass of hot or cold water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation, sweetens the stomach contents and neutralizes the acidity in a few moments. Fermentation, wind and acidity are dangerous and unnecessary. Stop or prevent them by the use of a proper antacid, such as blonnet's magnesia, which can be obtained from any druggist and thus enable the stomach to do its work properly without being hindered by poisonous gas and dangerous acids.
