Suburbanites Beware of Your Milk Supply

LET THE

Pacific Dairies, Ltd.

Safeguard the HEALTH of yourselves and children by supplying you with our PERFECTLY PASTEURIZED and CLARIFIED MILK, CREAM and ICE CREAM.

It is our intention to establish a service which will be unimpaired during the entire season and which will cover the territory from Ketepee to Westfield. This service will be so arranged that you will not have to move from your homes in order that you will always have a fresh supply of PERFECTLY PASTEURIZED MILK, CREAM, ICE CREAM, BUTTER, CHEESE and EGGS.

Our salesman will constantly remain in the central part of the territory embraced. Our supply will be fresh every day. We ask your assistance in establishing an up-to-the-minute service by either writing us or phoning Main 3458. Be sure you have the right number, as we have a few very unscrupulous competitors who will take your order, thereby deceiving you, not only with their conversations, but with the goods they supply you. We Can Prove Our Claims.

FRENCH OFFICER'S HOME COMING

Arrival at home after long turn in the trenches. The children, who are doing patriotic gardening, find a novel use for the steel helmet.

UNDER CONSCRIPTION

Proportions for overseas by province if compulsory recruiting is to be on the same basis as allotted for the 500,000 volunteers which were to be raised. The two military areas of Quebec province, having failed to send according to population, would have larger quotas of men conscripted. The diagram indicates an allotment of 27,800 men to Quebec and Montreal areas, and 8,800 to the London area in the first 100,000 conscripts.

HOOVER BELIEVES WAR MAY CONTINUE FIVE YEARS MORE

Washington, May 26.—Members of the cabinet and others actively engaged in the conduct of the war outlined war aims and needs yesterday at a meeting of editors of the country's technical and trade publications.

The food situation was presented by Herbert C. Hoover, who will be named food administrator. The country, he said, faces a war that will probably last from two to five years, and only by the most careful measures can the United States give the Allies enough foodstuffs to keep them in the war with the constancy demanded by victory.

GERMANS EXECUTE WOMEN

Geneva, via Paris, May 27.—La Suisse today prints details of a case similar to that of Miss Edith Cavell, the English nurse, who was executed by the Germans in Brussels in October, 1915. The Germans, says the newspaper, recently arrested two women, Miss Brister and her daughter, aged 22, on the Swiss Alsatian frontier. They were charged with acting as spies.

The women promptly admitted at the trial that they had smuggled letters, without knowing their contents, from Alsatian families to relatives in Switzerland. This was done simply as a friendly act, and without political or malicious purpose.

WORKMAN INJURED.

Albert Wallbank, who was employed at the site of the new elevator, was severely injured on Saturday afternoon. He was standing near the crane, which is used for lifting excavated matter on the cars, when a part of the apparatus broke and the heavy beam fell on the unfortunate man. He was rendered unconscious by the blow. Mr. Wallbank was removed to the General Public Hospital in a critical condition.

Two other accidents of a minor character occurred on Saturday afternoon. Shortly after noon the city ambulance collided with a street car at the corner of Mill and Main streets.

About 8.45 p. m. an automobile collided with a motor truck at the corner of Mill and Main streets. The truck was somewhat damaged, but no one was injured.

Highwayman Killed

Montreal, May 27.—Constable Gale, of the Chemin du Roy station, shot a highwayman at 9.45 Saturday night in Dorchester street near Bleury street, while the highwayman was robbing Edward Neely, 308 Union avenue, whom he had assaulted and dominated. The wounded man ran into Nicolas Dominico's grocery store, nearby, and fell across the counter. An ambulance was summoned from the general hospital, but before he could be lifted into it he was dead.

Children Killed

Halifax, May 27.—Elijah Wentzell, of La Have, who has been residing in Halifax of late, received word on Saturday that his young son had been drowned early in the day in the La Have river. The little boy who is eight years of age, was, it seems, fishing off a pier opposite the residence of Dr. Stewart with a companion of six years of age, a son of Robert Veniot. The little fellows were evidently alone at the time, for a passer by saw their hats floating on the surface of the water, and going to the wharf saw a portion of the structure had given away, and the children evidently been thrown into the river. A party was organized at once and the river dragged, with the result that both bodies were recovered.

Belgian Testimony

Have, May 27.—The Belgian authorities today made public a copy of an order served by the Germans on the city of Mons, as showing bad faith by the Germans in their announcement that deportations had been stopped, at the request of Pope Benedict.

The order, which is dated April 15, requires Mons to furnish 600 young men at a German cavalry barracks before noon of the following day, equipped with clothing, shoes and provisions. The city is notified that it must pay 300 marks for every man not furnished. The Belgian authorities say the indications are that the deportations will be extended to women, as the Germans are taking a census which includes women and young girls, as well as men.

Two Children Drowned

Halifax, May 27.—Elijah Wentzell, of La Have, who has been residing in Halifax of late, received word on Saturday that his young son had been drowned early in the day in the La Have river. The little boy who is eight years of age, was, it seems, fishing off a pier opposite the residence of Dr. Stewart with a companion of six years of age, a son of Robert Veniot. LOSS OF APPETITE

Most Successfully Treated by Taking Hood's Sarsaparilla

Loss of appetite is accompanied by loss of vitality, which is serious. It is common in the spring because at this time the blood is impure and impoverished and fails to give the digestive organs what is absolutely necessary for the proper performance of their functions.

Hood's Sarsaparilla, the old reliable all-the-year-round medicine, is especially useful in the spring. Get it from your druggist today. By purifying and enriching the blood and giving vitality, vigor and tone, it is wonderfully successful in the treatment of loss of appetite and the other ailments prevalent at this time. It is not simply a spring medicine—it is much more than that—but it is the best spring medicine.

Hood's Sarsaparilla makes the rich red blood the digestive organs need.

AMERICANS' AIR CHIEF KILLED BY A FALL

Captain Delage Crushed Under Motor of His Machine on the French Front

Paris, May 26.—Captain de Laage, commanding the American Escadrille, special machine of the climbing type, has been killed while flying near Ham, on the Somme front. He set out to attack a German. Mounting almost perpendicularly, he had reached a considerable height when the engine stopped abruptly. The machine dropped straight to the earth and de Laage was crushed beneath the motor.

In June, 1916, the various American air pilots who have been flying in different detachments of the French Aviation Corps were assembled into an organization known as the American Flying Corps. The organizer of this group was Lieutenant de Laage de Meux; its commander, Captain George Thénault, both of the French Corps. Last November, owing to objections made by the United States government, the organization changed its name to the Lafayette Escadrille.

Up to April 8 the corps had shot down thirty German airplanes, and four days later it was said that the members would henceforth wear United States uniforms and fly the American flag as the first United States unit on the front. Since then de Laage had been made a captain.

COAL FOR NEW ENGLAND

(Bangor Commercial.)

Railway officials believe that the coal shortage in New England will be relieved materially by the decision of the war board of the American Railway association to pool all coal for shipment on the Great Lakes through Lake Erie ports. The pooling is expected to result in a saving in the time of freight cars equivalent to adding 52,000 cars to the available freight equipment of the railroads. A considerable proportion of the freight cars relieved by the pooling will be used to rush coal to New England. The Council of National Defense is hopeful that during the next few months, it will be possible to ship enough coal to New England to prevent a shortage next winter. Howard Elliott, formerly president of the New Haven railroad, has been a tireless worker in an effort to get coal for New England.

The practice of shipping coal to the Great Lakes has been for each individual shipper to send his coal to some Lake Erie port, and there gradually accumulate enough for a ship load. Meantime the cars were held up. Because of the numerous grades of coal handled in this way, much switching was necessary. Under the new arrangement, coal owned by different producers, will be put in a common pool on arrival at a lake port and will be despatched to the northwest as fast as steamers can take it. It is believed that the new arrangement will effect a saving of one and one-half days in the time of each car carrying coal to Lake Erie ports.
