IN WALL STREET. New York, Feb. 5.—Firmness marked the opening of today's stock market, with the usual favorites leading. The Dow Jones industrial average closed at 110. The market was characterized by a general advance in all lines.

Trading became more active as prices advanced on short covering. The usual favorites led, namely, steel, equipment and shipping. Within the first half hour gains of 1 to 1 1/2 points were scored by General Asphalt, Mexican Petroleum and Northern Oil and Crucible Steel, American International, Baldwin Locomotive, American Woolen, Chino Copper and several of the transcontinental rails also were substantially better. Exchange on London rose moderately over yesterday's final quotations.

New York, Feb. 5.—(C. P. R.) U. S. Steel, 81 7/8; U. S. Steel, 112 1/2. Shorts contributed very largely to the advance of today's stock market. The aggressive attitude of bull pools in the more speculative issues prompted hasty covering of contracts. Oil, steel, equipment and rails were especially prominent at gains of 1 to 2 1/2 points. A demand for Reading common and the first and second preferred suggested early announcement of the company's segregation plan. The closing was firm. Sales, 250,000 shares.

JAPANESE IN CALIFORNIA. (Toronto Gazette). The negotiations between E. S. Morris, U. S. Ambassador to Tokyo, and Baron Shidehara, Japanese Ambassador to Washington, for a settlement of the controversy over Japanese immigration into California have reached a successful conclusion, it is reported.

The California issue was explained clearly by Mr. Morris in an address to the University Club of New York a few days ago. He said, in the first place, that the Japanese government was complaining because Japanese aliens resident in the United States are ineligible for Japanese immigration. But personal and property rights they have shared equally with other aliens. In 1913, however, California devised the plan of classifying aliens on the basis of their eligibility to citizenship, and then proceeded to deny aliens the right to acquire citizenship.

CONSTIPATION AND HEADACHES

MR. ALFRED DUBOISEAU. 482 St. Catherine St. E., Montreal.

For three years, I was a terrible sufferer from indigestion, constant headaches and constipation. I took various medicines for the trouble but nothing seemed to do me any good.

Then, a friend advised me to try 'Fruit-a-tives'. Now I am free of indigestion and headaches, the constipation is cured, and I have gained considerable weight; and my general health is fine.

'Fruit-a-tives' is a grand medicine and I cannot say enough in its favor.

ALFRED DUBOISEAU. 'Fruit-a-tives' are made from fruit juices and valuable tonics—and are pleasant to take, their action being gentle and mild, yet always most effective.

CARSON HANDS REINS OF OFFICE TO SIR J. CRAIG. (Canadian Press Despatch). Belfast, Feb. 4.—Sir Edward Carson in handing over the reins of office as leader of the Unionist party, today, said a great chapter in history had closed; that the great light had gone through without a single act which would disgrace the province.

Sir James Craig in acknowledging his election to the leadership, declared that his policy in the future would be that of the past—no surrender to the disintegrating forces in Ireland. "I am an Orangeman to the heart and always shall be an Orangeman, no matter what my position," said Sir James. "I shall uphold the same standards which have brought me to the proud position in which you have placed me today."

Sir James said there was steady uphill work in view in order to secure for "our children the heritage Sir Edward Carson has handed down."

EMPLOYERS FIGHT Y. W. C. A. DRIVE

Pittsburg Association Opposes Industrial Aims—Suggestion to Business Men Not to Contribute Blocks Work of Women.

Pittsburg, Feb. 5.—An attack made in the name of the Employers' Association of Pittsburg on the Y. W. C. A. on account of the association's "industrial programme" is understood to have spoiled practically the campaign of local branches of the Y. W. C. A. for funds for its 1921 work in Pittsburg.

The attack, which was made without warning to the Y. W. C. A., took the form of a letter sent to some three hundred employers and manufacturers, intimating that it was the intention of the association to contribute a considerable sum to the Y. W. C. A. on the fact that the 1920 national convention of the association delegates in Cleveland adopted as their "social platform" the social and industrial ideals embodied in the "Social Ideals of the Churches," a statement originally worked out, adopted and advanced by the Federal Council of Churches of Christ in America.

Text of Employers' Letter. The text of the letter sent out to Pittsburg employers from the Employers' Association and signed by William F. Long as vice-president and general manager is as follows: "In view of the campaign for funds which will be begun today by the Y. W. C. A. it is felt that your attention should be drawn to the fact that without adequate investigation the adoption of the 'industrial programme' which is in line with some of the recent radical and ill-considered efforts of religious and quasi-religious bodies to regulate industry, something they attempt to do in about the same manner that a bull regulates a china shop."

"Some of the things the Y. W. C. A. believes in and indorses are as follows: "Industrial democracy. "Collective bargaining. "A share in shop control and management by the workers. "Labor's desire for an equitable share in the profits and management of industry."

"Protection of workers from enforced unemployment. "A minimum wage. "Government labor exchanges (employment offices). "Experiments in cooperative ownership."

"The Y. W. C. A. has done and is doing a good work along some lines and it is greatly to be regretted that they have taken this excursion into a field about which they know practically nothing, and thus lend encouragement to what every man conversant with industrial problems knows to be destructive of the very basis of America's progress and civilization."

"After the misuse of funds by the ill-fated Interchurch World Movement we have felt it to be our duty to advise you of some of the purposes to which your money will be put upon the part of the Y. W. C. A. if the organization adheres to its present 'industrial programme'—in the formation of which we venture to presume responsible men with knowledge of industrial matters were consulted."

It is known that some members of the Employers' Association object to the sort of action represented in the circulation of this letter, and have protested vigorously to the officers. Principles Opposed by Employers. The industrial principles in the "Social Ideals of the Churches" as adopted by the Federal Council of Churches of Christ in America in 1919, and indorsed by the 1919 national convention of the Y. W. C. A. in Detroit and the 1920 national convention of the Y. W. C. A. in Cleveland, are as follows: "Protection of the worker from dangerous machinery, occupational diseases, and mortality. "The right of all men to the opportunity for self-maintenance, for safeguarding this right against encroachments of every kind, for the protection of workers from the hardships of enforced unemployment. Suitable provision for the old age of the workers and for those incapacitated by injury. "The right of employees and employers alike to organize and for adequate means of conciliation and arbitration in industrial disputes. Release from employment one day in seven. "Gradual and reasonable reduction of hours of labor to the lowest practicable point and for that degree of leisure for all which is a condition of the highest human life. "A living wage as a minimum in every industry and for the highest wage that each industry can afford. "A few emphasis upon the application of Christian principles to the acquisition and use of property and for the most equitable division of the product of industry that can ultimately be devised. "Facing the social issues involved in reconstruction, resolved that we affirm as Christian churches: (1) That the teachings of Jesus are those of essential democracy and express themselves through brotherhood and the cooperation of all groups. We deplore class struggles and declare against all class domination, whether of capital or labor. Sympathizing with labor's desire for a better day and an equitable share in the profits and management of industry, we stand for orderly and progressive social reconstruction instead of revolution by violence. (2) That an ordered and constructive democracy in industry is as necessary as political democracy, and that collective bargaining and the sharing of shop control and management are inevitable steps in its attainment. (3) That the first charge upon industry should be that of a wage sufficient to support an American standard of living. To that end we advocate the guarantee of a minimum wage, the control of unemployment through Government labor exchanges, public works, land settlement, social insurance, and experimentation in profit sharing, and cooperative ownership. (4) We recognize that women played no small part in the winning of the war. We believe that they should have full political and economic equality with equal wage for equal work and a maximum eight hours day. We declare for the abolition of night work for women and the abolition of child labor and for the provision of adequate safeguards to insure the morals as well as the physical, health of the mothers and children of the race. (34) We recognize that women played no small part in the winning of the war. We believe that they should have full political and economic equality with equal wage for equal work and a maximum eight hours day. We declare for the abolition of night work for women and the abolition of child labor and for the provision of adequate safeguards to insure the morals as well as the physical, health of the mothers and children of the race. (35) That the first charge upon industry should be that of a wage sufficient to support an American standard of living. To that end we advocate the guarantee of a minimum wage, the control of unemployment through Government labor exchanges, public works, land settlement, social insurance, and experimentation in profit sharing, and cooperative ownership.
