goods have been cancelled or not completed, owing to the fact that the high price of dollars would have left no profit on the resale of the goods here. Any wholesale cancellations of export orders would have a serious effect on the banking situation in the United States, for her system is based to the extent of 60 per cent on bills and 40 per cent on gold. Therefore, if orders for goods for export are cancelled, how can the bills drawn against these goods be met on maturity? The only means of doing so would be a forced sale of the goods. If the bills are not met in any considerable quantity, a pretty problem would face the Federal Reserve Board, and if the goods were forcibly liquidated the blow to the commercial community in the United States would undoubtedly be serious.

This possible consequence of the fall in foreign exchange is perceived in New York, where a number of United States banks have discontinued the discount of bills against export of merchandise, and will only accept bills subject to collection, crediting the exporter on the receipt of the proceeds from Europe. The banks have also decided not to lend against unsold goods, so that bills are not created against them. This will put a very effective check on exports to Europe, and will produce the very object we wish to attain, namely, restrict imports and bring down prices.

GONE TO WINNIPEG.

Edward Boscini, who has been at the head of one of the departments in Gannong Bros.' factory in St. Stephen for twenty-five years, left Monday evening for Winnipeg, where he is to assume a responsible position in a large candy factory conducted by the Hudson Bay Company.

## The Greatest Chain of "Movies" in Canada

31 big theatre-seating capacity 45,000—with average patronage of 150,000 persons a day is the program of the Famous Players Canadian Corporation. Over \$1,000,000 of 8% Cumulative Preferred Shares will shortly offer to investors.

16 of these theatres now in operation, 5 more to be in operation by the end of 1920, and 10 more to be completed early in 1921—such is the scope of this new Canadian-controlled Motion Picture Theatre enterprise.

Is it any wonder, then, that as an investment opportunity, we rank it as one of the most favorable we have ever offered investors?

Indications are that the issue will be rapidly absorbed.

You should write, or wire, immediately for advance prospectus and full particulars.

## Canada

### The Logical Home of Great Industry

Industrial Canada is already a robust reality. But, measured in terms of the future, it is still young and undeveloped.

In the days to come, the world's industries will be concentrated even more than now around the reservoirs of important raw materials.

That is why the Canada of to-morrow is bound to be the home of great industries—the factory-land of the future. For within the confines of the Dominion are the forests, the mineral lands, and the unlimited water power which are the conditions that make industrial growth inevitable, when directed by restless human energy.

It is because the seeds of growth are imbedded in so many of Canada's enterprises that they are worth investing in.

When you turn your money into bonds or preferred stock that may be outstanding for many years, it is not enough that the company be prosperous now. You must know that the corporation whose securities you buy has a future.

The securities we offer are those of corporations developing necessary industries and rendering definite services in a growing market.

Let us explain how you can best buy a share in Canada's well being in the days that lie ahead. Securities sold upon the partial payment plan. A small initial deposit, followed by regular monthly payments, is all that any ambitious man or woman requires to become a share holder in Canada's prosperity.
