STARTED ON \$50; DIES MILLIONAIRE

Frank W. Woolworth Passes Away Suddenly at Home in Glen Cove, Long Island

New York, April 8.—Frank W. Woolworth, who started a five and ten cent store in Utica, N. Y., forty years ago on a capital of \$50, and eventually became the millionaire proprietor of a great chain of these stores in the United States, Canada and England, died suddenly early today at his home at Glen Cove, Long Island.

In addition to establishing a business with profits said to be nearly \$8,000,000 yearly, Mr. Woolworth built the celebrated fifty-one story Woolworth building in lower New York, said to be the tallest building in the world. He was born on a farm at Rodman, Jefferson county, New York, on April 13, 1832.

ST. ROCH, QUEBEC, IN GRIP OF FIRE

Quebec, April 8.—Fire is raging in the heart of the business section of St. Roch this afternoon. It broke out in the store of Antoine Fiset & Co., furniture dealers, and is giving the firemen a hard time. So far the firemen have succeeded in keeping the flames within the Fiset block.

THREE ARRESTED.

LEGISLATION AND EDUCATION.

To the Editor of The Christian Science Monitor:—

In view of the fact that many state legislatures are meeting this year, all citizens who are awake to the importance of giving our children the best possible preparation for the arduous tasks of the future, should work for legislation which will insure for the little ones a training in higher ideals, loyalty to duty and country, and a higher and more efficient citizenship.

The kindergarten not only trains the intellect, and cultivates right habits at an early age, but gives equal attention to the moral and spiritual development, and inculcates right ideas in regard to the brotherhood of man and the fatherhood of God.

The uplifting influences of the kindergarten are brought about through simple songs, interesting games and fascinating occupations, which are adapted to the tender age of the children. While the work is elementary, it has all been most carefully planned.

Frederick's definition of education consists in leading man as a thinking intelligent being growing into self-consciousness, to a pure and unselfish, conscious, and free representation of the inner law of Divine Entity, and in teaching him ways and means thereto.

California has a law providing for the establishment of kindergartens on petition of parents under which its classes have more than trebled. Last year Maine and Texas secured similar laws, and this winter friends of the kindergarten in New York, Pennsylvania, Indiana, Illinois, Kansas, Utah, and Arizona have been working for legislation which will result in the extension of kindergartens. Up to the present time kindergartens have been providing for only about one-eighth of the children of kindergarten age of the country.

Better kindergarten laws will help to increase the number of classes for the little ones, so many of whom are now left to the education of the street. The kindergarten is democratic, hence it was repudiated by Prussia, and the disappointed Froebel looked to America for the consummation of his hopes. The kindergarten division of the Bureau of Education wrote to school superintendents having kindergartens in their schools to ask for an expression of their opinion of its educational value. Approval of the kindergarten was practically unanimous.

The office of kindergarten extension, United States Bureau of Education, 8 West Fortieth street, New York, will gladly respond to inquiries regarding kindergarten legislation or extension. (Signed) BESSIE LOCKE, Director of Kindergarten Extension, New York city.

MY DEAR!

Are you aware that an ointment applied to the skin is absorbed into the system just as surely as medicine that is swallowed? It is! You see, therefore, how necessary it is we should use a pure ointment; and the purest you can get for yourself and your children is Zam-Buk.

Dr. Scott, the great English analyst, says: "I have analysed Zam-Buk, and have no hesitation in certifying its purity." There is another reason why you should prefer Zam-Buk. It is of such a refined nature that it can penetrate to the very seat of skin diseases; whereas ordinary ointments, owing to their coarse ingredients, remain on the surface skin. Skin diseases, like plans, have their "roots." Zam-Buk can get down to the very root of the disease, kill the germs and thus effect lasting cures.

There is nothing like Zam-Buk for ending eczema, old sores, or eruptions; nothing that can so quickly draw out the soreness of a cut, burn or scald. Try it! Prof. Mrs. A. J. Cameron of Mehta, Man., writes: "My little son's head and hands were completely covered with eczema. I tried numerous ointments, and he was under doctor's treatment for some time, but nothing would cure him. Then I tried Zam-Buk. After a week's treatment I noticed a marked improvement, and perseverance with Zam-Buk resulted in a complete and permanent cure." All druggists and stores 50c. box or Zam-Buk "Cdn." Toronto, for 50c. Send 16c stamps for free trial box.

ROTHESAY COMPANY

BILL IS APPROVED

Acquisition of Glen Falls Water System and Amalgamation With Rothesay

(Special to Times)

Fredericton, N. B., April 8.—The acquisition of the Glen Falls water system and its amalgamation with the Rothesay water system was approved by the municipalities committee this morning in dealing with a bill relating to the Rothesay Water and Improvement Company.

The bill authorizes a change in the company's name which in future will be the Rothesay and Glen Falls Water and Improvement Company, and an increase in the capital stock to \$400,000. Amendments were added to prevent the company assessing for water purposes in the parish of Simonds or interfering with the water supply of the city of St. John.

The committee further considered the bill to incorporate the Albert Mines Holding Company Limited. P. R. Day, president of the company, and the committee went into private session.

The committee decided to report the bill to the corporation of the Associated Aluminae of the University of New Brunswick with amendments, the bill to incorporate the Albert Mines Holding Company Limited, with amendments, the bill to incorporate the Rothesay Water and Improvement Co., Ltd., with amendments.

The committee referred back to the law committee a bill to vest certain properties devised by Alexander McLaggan months ago in the Presbytery of Miramichi.

President of Company Found Guilty in Montreal

Montreal, April 8.—J. A. Guilmette, president of the J. A. Guilmette Company, Ltd., bankers and financiers, was found guilty by Judge Basin in the court of special sessions of the theft of \$47,000, being money and securities of the company. Guilmette was given the money to invest. He swore in evidence that he lost the money while on a train journey in Florida.

The defence contended Guilmette had squandered the money in pleasure and a rogatory commission was appointed which investigated his movements in the United States. The court accepted the commission's finding that Guilmette had not been robbed of the money.

Guilmette, who is out on bail, was not present in court when found guilty. His lawyer announced that he had been unavoidably detained at St. Scholastique.

CORN AND OATS.

Chicago, April 8.—Fresh advances took place today in the corn market, largely as the result of continued scarcity of receipts. Bulls asserted that there would be less corn available for export than at present. The fact that the government crop report on winter wheat was extremely bearish seemed to have discounted in full beforehand the opening prices, which ranged from 1/2 cent lower to 1/4 cent advance with May \$1.50 to \$1.55 and July \$1.48 to \$1.40, were followed by material gains all around.

Oats showed independent strength. The decrease in the visible supply total tended plainly to the upside. Opening prices, which ranged from 1/2 off to 1/2 up, with May 67 1/2 to 68 1/2, the market scored a decided general upturn.

Traders received their cue from the rise of grain and hogs.

Fashion Requires A Bracelet Watch

A bracelet watch is a necessary addition to the smartly dressed woman's costume. It is worn for shopping, at receptions, and the very small, ornate models are worn at dances and other formal evening entertainments. To be without a bracelet watch is to lack an essential of the fashionable toilette.

Sharp's stock of bracelet watches is chosen to meet every requirement of fashion, and at the same time have each one a dependable time-keeper. You will enjoy thoroughly examining these watches, and we invite you to do so.

LARGE INCREASE TO CANADA'S NET DEBT

Ottawa, April 8.—When Sir Thomas White presents his budget to the house, he will be able to announce a revenue for the year which closed at the end of March well in excess of the estimate. In the last budget, revenue was estimated at \$270,000,000. The monthly statement issued by the finance department today shows that revenues received during the financial year total \$305,230,000, or \$35,000,000 over the estimate and \$35,000,000 over the revenue collected in the previous fiscal year.

War expenditure during the year was \$347,824,000, an increase of approximately \$47,000,000 over the previous year. The net debt of the dominion increased during the year from \$1,085,394,000 to \$1,638,377,000.

OPPOSITION TO THE NEW GOVERNMENT

(Continued from page 1)

British residents of the city will leave for Paris by way of Vienna on Saturday. The government seems to be doing everything possible in favor of foreigners.

The Hungarian government, in its reply to General Smuts, thanked him for his civility, but declared that the conditions presented were unacceptable, except as an order to those who might be inclined to assume the government of the country on such terms.

"But," the government's reply added, "relying on the good will displayed in such an unaccustomed manner by you, we beg you to interpret the following proposals to the Entente Powers:

"First—The Soviet government also is disposed to create a neutral zone, but solely on the condition that the frontier thereof is shifted eastward to the Maros line and that the Soviet republic shall administer without interference in the territory occupied by the Allied troops, thus allowing the Soviet republic to be re-established in Szegedin and Arad. There shall be free intercourse from the neutral zone both in the direction of Hungary and Roumania and free transit in the Transylvanian territory occupied by Roumania.

"Second—At the same time we request the complete raising of the blockade and the supplying of the republic with coal and fat.

"Third—We request that the proposed conference should include representatives of the Hungarian Soviet republic, Roumania, Roumania, Serbia, Jugoslavia and German-Austria and that it meet at the earliest possible moment at Prague.

CAIRO REPORT BETTER.

Paris, April 8.—(French Wireless Service)—Information from Cairo is that traffic has been resumed on the Bagdad railway. The tunnel through the Taurus mountains has been captured and trains from Haidar Pechi now go as far as Naxsibin, 120 kilometres from Mosul. In Mesopotamia work on the extension of the line to the Persian Gulf is being carried out.

FINED \$500 FOR HOLDING PROPERTY IN THE KINDEL RIOTS

London, April 8.—(Canadian Associated Press)—A lot of Canadian government property was missing after the Kinzel Park outbreak and several persons were fined yesterday at the local sessions for being in possession of it. The goods included tea, meat, bread and clothing.

A lawyer who appeared for the accused said that it was impossible for an apostle to resist the temptation to sample the things which were thrown about during the riots and when tons of tobacco and cigarettes were given away by the soldiers.

ALL THE WORLD TO NOTHING

STRIKING PICTURE AT STAR

Who do you think takes the bigger chance? The woman who marries a strange man—a burglar—in order to hold a fortune, or the man who marries a strange woman in order to save himself from arrest?

You might say the woman does; but in "All the World to Nothing," the woman is the most unusual young person and the man, likewise; but, in addition, he is something of the fool—the fool of youth and wealth—and, under the circumstances, he does not care much what happens to him. But he is a man all the way through, and gilded dissipation has not deprived him of the effectiveness of two very hard fists.

All the World to Nothing, of which popular William Russell is the star, is something surprisingly new in photography. It is full of dramatic and physical punches. It has both pep and tobacco, with an abundance of laughs and an intensely pathetic bit which melts the eyes with tears—one of the most forceful and sympathetic things that Mr. Russell has ever done. In his six-reef feature being shown at the Star Theatre at present, Mr. Russell is admirably supported by dainty Winifred Westover, who finely carries the spirit of Wyndham Martin's great story.

The usual chapter of "Wolves of Kutztown" is also on this programme. Tomorrow Virginia Pearson will be seen in "Sister Against Sister."
