CARDINALS CALL FOR
DAILY WAR PRAYERS

For Guidance of Rulers, Success of Arms, Unity of Nations, and Welfare of Heroes

An appeal to the American people by Cardinals Gibbons, Parley and O'Connell, to pray three times daily for the guidance of our rulers, the success of our arms, the unity of the nations, and the welfare of heroes, was made public in New York this week. The appeal was entitled "Light and Prayer," and said: "If we fight like heroes and pray like saints, soon will America overcome our foes by greater force and conquer just of power by the nobler power of sacrifice and faith. Animated by this undaunted spirit, let the whole nation turn to God in prayer while our army courageously confronts the foe in the battle. While we utilize every possible source of material power let us fortify it by the greatest of all spiritual power—prayer."

"Let us, moreover, each day, until the peace for which we fight crowns our efforts, say daily three times, morning, noon, and night, in the evening, the Angelus, for the guidance of our rulers, the success of our arms, the unity of the nations, and the welfare of heroes. And may Almighty and Eternal God bestow upon the prayers of a united nation and grant speedily that peace which surpasseth understanding."

"From the moment when our country made its momentous decision to enter this tremendous conflict the whole Catholic population of America has enthusiastically and wholeheartedly accepted its full share of war and sacrifice, and has unflinchingly put forth all its resources to stand with all other Americans in the defense of our sacred principles of right and national duty. The Catholics of America are in the vanguard of the nation's service on land and sea, in the trenches and in the work, and until this fierce contest is finished and the cause for which we fight has triumphed their efforts will increase. Our president has clearly stated the high principles upon which that sacred cause rests, they are as universal as they are unselfish. We battle for the welfare of men of every nation, asking no special indemnities for our sacrifices other than those which all free men always seek."

Standard Clothing
Coming in England

Government New-Making-Masculine
Clothes for Women in England

Standard clothing for men and women is the next step in economy in England. Special clothes made by government factories are now on the market, a nursing sister who recently returned from England says: "The women are taking to these garments better than the men, however. Although the garments are largely of the same pattern, nevertheless the people are enthusiastically adopting them."

A good pair of shoes now costs twenty-five shillings where they previously cost fifty shillings. They are of a much better quality and give better satisfaction for the money than those made by private concerns.

It is the same way with the clothing. Though not made elaborately they are simple and of good material, made in a masculine style, and are of men's cloth. "It doesn't make much difference to the women anyway," said this nursing sister, "as they are mostly wearing trousers and coats to work in and have been for some time."

AN INCENTIVE TO WORK

If the four districts of the city will get properly organized for base ball, with the boys' leagues in the east, west, south and north end, Grant & Horse will put up a fine trophy to be competed for annually. This should encourage the different sections of the city to get busy, form an organization such as those proposed in the south and west ends, and form up their leagues with more interest and spirit than to the ages of the boys, and put on at least a short league series this season. Now is the time to do it.

FORMER DIRECTOR OF
PARIS PREFECTURE OF
POLICE INDICTED

Charge is Having Commerce With Enemy—Malvy Creates Sensation at His Trial

Paris, July 20.—(Havas Agency).—An indictment has been found against M. Manoury, former director of the prefecture of police charging him with having commerce with the enemy.

Paris, July 20.—The cross-examination of M. Malvy, former minister of the interior, who is on trial before the senate sitting as a high court of justice, on a charge of treason, was continued yesterday.

M. Malvy defended himself as having always acted in accord with each ministry of which he was a member. He created a sensation by quoting from a letter dated May 5, 1917, from General Nivelle, expressing the gratitude of the army and General Nivelle, then commander-in-chief of the armies of the north and northeast, for M. Malvy's work.

M. Malvy said the morale of the army was excellent before April, 1917, of which he was a member. He was lowered sharply after owing to the result of the offensive and disappointed hopes. The situation, he added, were due to defective cantonnements and the suspension of leaves and also to the Russian revolution and the desertion of the army discipline and the soldiers selecting their own officers.

SUDDEN DEATH OF NURSE

Miss Lily A. Smith, a graduate nurse, died suddenly this morning at her home in Durham street. She is survived by her father, Andrew G. Smith, two sisters and three brothers. The sisters are Mrs. George W. Donaldson of Durham street and Mrs. J. Morse Hall of Victoria, B. C. The brothers are J. Moulton, a returned soldier; William V. with the Canadian forces in France, and Chester A. of Yarmouth, N. S. She was twenty-two years of age and was a bright and popular young nurse. A host of friends will be shocked to learn of her sudden death. Heart trouble is thought to have been the cause.

SHEEP AND DOGS

The Township Council of Inishail, Ontario, has hit upon a fairly effective method of dealing with the dog nuisance. The method is thus explained by Gavin Allan, a member of the council: "The Canadian forces in France, and Chester A. of Yarmouth, N. S. She was twenty-two years of age and was a bright and popular young nurse. A host of friends will be shocked to learn of her sudden death. Heart trouble is thought to have been the cause."

The bylaws of the council further provide that any dog running at large without a tag may be used as evidence. This has been used in the past to clear the sheep part of the township of useless dogs, and losses of sheep by dogs in the past have been reduced almost to the vanishing point. "There is scarcely a meeting of the council, however," the speaker said, "at which we do not have claims from the northern part of the township for sheep destroyed by dogs coming out from the town of Barrie."

Grandmother Gave
It To Mother,
Mother To Me,
I To My Baby

Read what Mrs. Wm. Gray, Jaquet River, N.B., has to say about Dr. Fowler's Extract of Wild Strawberry. She writes: "There is no medicine I know of that can come up with Dr. Fowler's Extract of Wild Strawberry. It has been in our house for forty years. My grandmother gave it to my mother, she to me and I to my baby. For summer complaint it has no equal. I never make a change of telling my neighbors about it. I would not think it safe to go to the country in the summer without a bottle of it. It has saved us many a doctor bill."

For the past 72 years Dr. Fowler's Extract of Wild Strawberry has been recognized by both the people and the medical profession as the greatest remedy known for all cases of diarrhoea, dysentery, cramps, colic, pains in the stomach, cholera infantum, cholera morbus, seasickness and all bowel complaints.

There are so many spurious "strawberry" preparations on the market today that it would be well for you to see that the name "Dr. Fowler's" is on every bottle you buy.

Our guarantee, that it will do what we claim for it, stands behind every bottle. Refutations—what is their record, where the guarantee? Put up only by The T. Milburn Co., Limited, Toronto, Ont. Price, 35c.

VERY SUPERIOR IS
THE NEW PROGRAMME
AT OPERA HOUSE

Entertainment That Has Not Been Exceeded in Weeks—Wealth of Comedy, Good Music, Outstanding Acrobatic Feats

With every act, indeed, some of the performers five and six times, the house ringing with laughter and applause in recognition of the good work of the entertainers, the Opera House's new programme, introduced last evening, has probably not been surpassed in many weeks.

It is rich in variety as well as merit. There is comedy, good music is a feature and there are excellent acrobatic novelty acts, as well as a very stirring chapter of the gripping story "The Lion's Claw" with the heroine and Buck going through alarming adventures and leading to a startling climax.

The vaudeville part of the programme was opened by the Kimura Japs—big comedians and dainty girl. The music gives a clever performance of foot juggling and water skier whirling and the high performance of the acrobats. Lying on his back he balances this on his feet while the young woman, climbing high, performs clever feats. The act won hearty applause.

Earle and Sunshine, two young women, there is reason to believe some of the best comedy of the present day and the most of the times gone by. The contrast between the two and then in courtship, singing, dress and dancing, and provide a most enjoyable feature of the programme. It is rich in comedy and delightful in the recall of the quieter but better amusements of the olden days. Everybody is bound to be carried away by this number.

Next comes a quartette of pretty girls in "Now-a-days." It is representative of the part that woman is taking in the daily occupations because of husbands and mothers being at the war. The young women sing excellently in solo and concerted numbers, and one is a comedienne of talent. She had the house in an uproar of merriment and the performers received several times.

Word has just been received by relatives of the death of Mrs. John Stenwick at Kennedys, Sask., on July 11. NATURAL GAS SUPPLY
APPROACHES EXHAUSTION

If Used in Western Ontario as Hitherto Six Years May See it Gone

Niagara Falls, Ont., July 20.—D. A. Coote of Niagara Falls, who is in charge of the Provincial Gas Company's interests in the Niagara district, in an interview said he was pretty well convinced that the natural gas supply in the Niagara district is pretty well exhausted. "Last winter," said Mr. Coote, "we sank a well 5,400 feet deep and got some more gas, and we are just completing a second one which will be 5,400 feet deep, and we are hoping against hope that it will come to something. We are down now more than 3,000 feet. The old wells which have been supplying natural gas in this district for some years were only 800 or 900 feet deep, but these have been pretty well exhausted."

Regarding the natural gas supply in western Ontario, Mr. Coote said that by using the greatest care and using it only for cooking, there is gas for eighteen years to come, but if allowed to be used stopped.

Mrs. Missy-Aux-Bois, after supplying the advancing men with chocolate, just as three German shells exploded within the village.

OVER GROUND COVERED BY THE GERMAN DEAD.

(Continued from page 1.)

Behind the advancing troops came trucks loaded with various foodstuffs. These went back and forth steadily. The chauffeurs of these trucks were frequently under fire. One chauffeur passed through Missy-Aux-Bois, after supplying the advancing men with chocolate, just as three German shells exploded within the village.

Twenty-five minutes after the Franco-American advance began the rattle of German machine guns could be heard in the distance, but it did not affect the Americans, who appeared only more eager to progress.

The officers have cautioned them not to proceed beyond the barrage in accordance with the schedule. The German machine gun fire has been a short time and as the Americans could be seen steadily pressing forward eastward the rattle dwindled and finally stopped.

Missy-Aux-Bois was deserted by the French peasants before the Germans came to the village, which had been torn from end to end by shell fire in previous fighting. Not one wall or any stone buildings are standing. To the north and south of Missy-Aux-Bois are two other deserted villages, in one of which every building is in ruins. The fields in this section are covered with grain ready for the harvest. Many rusty tools and implements are standing just where they were left when the alarm came.

When darkness settled over the battle the Americans still maintained their advance. The guns in the rear were pounding away, guarding them through the night.

Puccini's Lion Brand Macaroni

AN ECONOMICAL WAR-TIME FOOD

Puccini's Lion Brand Macaroni Products are recognized to be the best made on the market. Generations of Puccini's in Italy have been manufacturers of high-class macaroni, and LION BRAND MACARONI Products are made under the direct supervision of Mr. A. Puccini.

Mr. Puccini is desirous of impressing upon the Canadian public that macaroni "Made in Canada," in his own factory, is quite equal, if not superior to any imported goods. As a proof of this, Puccini is supplying 75 per cent. of the better class of the Italian trade with their requirements in his products.

Puccini's Lion Brand Macaroni is manufactured in the Italian method, under perfect mechanical and natural drying processes and under the most sanitary conditions.

In cooking, Puccini's Lion Brand Macaroni will increase in bulk from 80 to 40 per cent. owing to the thorough drying process employed in its manufacture which means that consumers obtain greater food value than from the average brand of macaroni. Puccini's Macaroni is a wholesome, nutritious, appetizing and economical food, and may be obtained from all leading grocers.

"Puccini's Lion Brand." No other make is "Just As Good," and we are sure that if you once give it a trial, you will never again be satisfied with any other brand of macaroni.
