THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, FEBRUARY 15, 1923

### CONDENNS IRISH REBELS

**POLICE COURT**  
Two men for drunkenness appeared in the police court this morning. They were remanded. This was city court day.

**BANK CLEARINGS**  
Bank clearings in St. John for the week ending today were \$2,892,866. For the corresponding week last year they were \$2,476,112 and for 1921 they were \$2,807,244. Halifax clearings this week were \$2,446,683.

**NEVINS WILL CASE**  
The hearing in the matter of the will of Charles Nevins, an appeal from the St. John County Probate Court, continued this morning in Fredericton when on again this afternoon.

**THEN AND NOW**  
(Vancouver Sun)  
From Tot-anh-Amen's tomb the scientific looters bring the King's favorite chariot. Stripped of its gold and jewels, it is a plain two-wheeled cart such as the average modern boy would scoff at.

This chariot didn't even have rubber wheels. It must have been decidedly uncomfortable, bumping over cobble-paved or muddy ruts. It's a safe guess that Tot-anh-Amen would have traded half his kingdom for one of the flippers that Henry Ford has made available to rich and poor alike.

The King's drinking goblet is found carved from gorgeous alabaster. But that didn't make the liquor taste any better than it had been served from a stone mug of cheap drinking glass.

The things we consider necessities today would have been dreamland luxuries for ancient Kings. Tot-anh-Amen's tomb yielded a gold candlestick. He had no convenient electric lights, no movies, no hot running water, no ice, no fast trains, no newspaper to keep him informed of far off doings.

Of course, maybe, he enjoyed his life immensely, not knowing the difference between crude services performed by human slaves and the instantaneous services of electricity, steam and other modern scientific slaves.

Enjoyment is largely a mental attitude. And, if we have proper appreciation of our modern conveniences, we realize that each of us is a King, judged by ancient standards.

**IS BRITAIN MILITARIST?**  
(Manchester Guardian)  
The figures of the relative air strength of England and France which the air ministry has issued, are not over-clear, but what they come to is that together 128 fighting squadrons, with 1,182 fighting machines, as against the 32 squadrons and 284 machines of France that are engaged on distant fields, France has 100 squadrons with 900 machines and England 16 squadrons with 180 machines. That is roughly how the position stands from the point of view of home defence.

On the supposition of any conceivable clash between these two forces it is not wholly satisfactory to the inferior side. Of course, no one dreams of any clash, but that does not wholly dispose of the matter.

**CHURCHES MAKE GAIN**  
The churches of America had their banner year in 1922. In church membership was greater than in any previous year, and in the way of financial gifts, all records were broken. More than \$60,000,000 was spent for new church buildings, salary of ministers were increased, and \$40,000,000 was contributed to foreign missions.

There was a time when nearly as much money was spent building breweries as was spent building churches.

**Look at Once To Signs of Cold**  
Colds or Grippe Should be Promptly Checked.

No person who has any regard for their health can afford to neglect a cold. You positively can't afford to say: "It's only a cold, let it run its course." Any physician will tell you this is a grievous mistake, one for which many pay the price in the form of acute disease, some with fatal results.

As soon as signs of a cold appear start taking Grip-Fix, the remedy which can be obtained at any drug store, and which will give relief in a single night. Its action on the system is almost immediate, the natural channels for carrying off systematic poisons being kept open, the feverish condition developed by colds kept down, and the accompanying muscular pains in the back and other parts relieved.

There is absolutely no secret about what is in Grip-Fix. The formula is printed on every box. Show it to your family physician if you want it. Most doctors will heartily approve it.

On sale at Watsons Drug Stores. 35c. per box.

### A Gripping Story of The Prince of Wales

London, Feb. 15.—The story of a visit made by the Prince of Wales to a hospital where thirty-three disabled war veterans are spending their days is printed by the Daily Mail today.

After seeing twenty-nine of the men and offering them his condolences, the Prince asked where the other seven were. He was told that these were so shockingly mutilated that it was hardly desirable for him to see them. The Prince, however, insisted and attendants accordingly took him into the ward.

With each of the six whom he found there the Prince chatted cheerfully, and then asked where the seventh was. He was told that no one except the physicians and nurses were allowed to see him. He saw the afflicted veteran. For a few moments he stood with bowed head. Then he slowly stooped down and kissed the shattered face.
