Since the Advantage is noted at Emiliary, Nova Scotia, on January 20, little has been heard of them or their doings, and many who sympathies with these Muscovite Pilgrim Fathers of the nine-teenth century have been wondering hew they are faring in their new Canadian home. These will be glad to learn that the Russian exiles are thriving and happy. It is too early yet to speak definitely as to their plans or prospects, but from a letter which was received by a countryman of theirs in this city a few days ago, says The New York Herald, it is very crident that they look forward hopefully to the future and that they have really found in this new world the promised land for which they have a long yearned.

Health and strength carry us through dangers and make us safe in the presence of peril. A perfectly strong man with rich, pure blood, has nothing to fear from germs. He may breathe in the bacilli of consumption with impunity. If there is a weak spot where the germs may find an entrance, to the tissues, then the trouble begins. Disease germs proagate with lightning-like rappidity. Once in the blood, the only way to get rid of them is to kill them. This is what Dr. Pierce's Golden Medical Discovery is for. It purifies the blood. That means that it kills the germs, but that is only part of what it does. It assists digestion by stimulating the secretion of digestive fluids, so promoding assimilation and nutrition; purifies and enriches the blood and so supplies the tissues with the feod they need. It builds up strong, healthy flesh and puts the whole body into a discover-presisting state.

A North Carolina woman dropped have really found in-this new world the promised land for which they have so long yearned.

Certainly this country has never offered a home to foreigners more picturesque than these men. With their sheepskin coats, fur leggins and fur caps, and these women, with their bright red skirts and thick woolen head coverings. More sombre attire would apparently be more appropriate for those gentle Russians, who are as ardent lovers of poace as the Quakers themselves, but then, remembering their bold and uncompromising resistance to the powers that be, we must admit that their dress harmonizes, well with their conduct. It is somewhat barbaric, but then it has the charm of antiquity, and, best of all, to fhe artist's eye, it seems the most desirable attire for these strange mea and women, who have taught the world the latest lessen in the art of passive resistance.

Red Cloak Carrying a Huge Bunch Keys Appears in Front of the Main House and Roars Out "Escort

The main guardhouse at the tower, which has just been pulled down, is hard by the Bloody Tower. It is at this spot that the quaint and ancient ceremony of locking up the tower is nightly performed as it has been for centuries. A few minutes before 11 the head warder, or yeoman porter, as he is proposaly styled, clothed in a red cloak, carrying a portentous bunch of keys, and accompanied by another warder carrying a lantern, appears in front of the main guardhouse and roars out, "Escort keys!" The sergent of the guard turns out with some of the men and follows the yeoman to the outer gate, the whole party being collections of the country and the answer is simply "Keys." The gates being locked, the keys are brought took to the main guard. Here the sentry stamps and roars out, "Who goes there?" "Keys," is the reply.

"Whose keys?" "Queen Victoria's keys. And all's well." "God bless Queen Victoria's keys.

"God bless Queen Victoria?" cries the yeoman porter.

"Amen!" responds the main guard.

"Present arms!" cries the officer on duty, and amid the rattle of the salute he kisses the hilt of his sword. The yeoman porter marches off with the keys and deposits them in the lieutenant's lodgings, and from that time throughout the livelong night you can only circulate within the tower precincts if you know the countersign.—Loncon Graphic.
