CHINESE BANK CLERKS. Ingenious device was employed. A flat wooden tray was produced containing 100 recesses, each just big enough to lodge one coin and just shallow enough to prevent the possibility of two lurking together. The pile of small coins was poured out on this tray and with one jerk of the clerk's wrist the 100 recesses were filled and the surplus swept off. During the performance the clerk kept his enormous sleeves well tucked up, in order to disarm any possible suspicion of dexterous pilfering.

A MISUNDERSTANDING. In a piece of police court news published in Saturday's Star, J. B. M. Baxter was quoted as assuring Daniel Mulholland that he need fear no harm at the hands of Mr. Baxter's client, a Hebrew, as people of that race had a horror of pork.

WILD RUNAWAY.

There was a wild runaway this morning, when a horse attached to a shaver galloped down Millidge street from Rockland street to Paradise row and thence out Paradise row to Harris street, where he was captured, seemingly little the worse for the run. Millidge street is little better than a alley with a sharp bend and a grade that is not exceeded in this city of hills. How the animal succeeded in getting down this hill and making the sharp turn into Paradise row without losing his life, to say nothing of derouling the shaver, is a mystery that never will be solved. As the horse neared the foot of the hill he tried to stop but could not do so, and when he reached the street swung toward the east, but the momentum was such that he was forced against the side of the Mission Chapel of St. John the Baptist, then in a second he recovered himself and continued on his wild run.
