THE CONVICTION OF JAMES
BROWN.

The jury empanuelled to try James Brown for the murder of Mr John Sheridan Hogan M. P. P., have found him guilty of the charge, and he has been sentenced to suffer the extreme penalty of the law on the 4th day of December next. The evidence that a cobman who had driven Mr Hogan from the Union station to the gaol gates on the previous evening called upon, Mr Platt of the "Albion," on the morning of December the 1st, 1859, and asked for payment on account of his fare, in connection with the evidence of Mr. Walker, of Walkerton, who says that on the same afternoon of that day the deceased took tea at the "Albion," probably outweighed in the minds of the jury the testimony of Mr Williamson and Mrs Lawrie. Whatever theory be started, however, is surrounded with discrepancies which the ingenuity of Juge and Counsel failed to reconcile. The jury gave the greatest attention to the case, and we doubt not in rendering the verdict of guilty have recorded not only a conscientious but an intelligent to conviction. Some of the points involved may be cleared in the future. The case is one of the most remarkable which has ever

On Sunday afternoon, about a quarter past four o'clock, a young man, about 21 years of age, named John Percival Bemis, lodging in the American Hotel, St Henry Street, committed suicide by shooting himself with a pistol in the left side over the region of the heart. He came from Boston, where his relatives are now living. Friday region of the heart. He came from Boston, where his relatives are now living. Friday morning he came to the American Hotel, and entered his name as Charles Preston, Portland, Me. Friday evening he went down to Quebec, and returned again to the hotel yesterday evening, where he remained during the day, without attracting attention by anything peculiar in his deportment or conversation. He took a hearty dinner vesterday, and about 3 o'cloek, p. m., went book-keeper and got a sheet of paper and velope, and wrote a letter to his brother Boston, stating that he had been down uebec, trying to get on board a vessel Europe, and, having failed, he returned to Montreal, where he would shoot himself with a pistol he had bought for the purpose, as soon as he had finished the letter, for he could not endure life, seeing he had lost all his friends by his bad conduct.

The Island of Cuba, in spite of Spanish misrule, says the London American, is one of the most prosperous portions of the earth. Her present population is estimated at 1, 130,000 of which nearly 550,000 are white inhabitants, 180,000 free colored, 400,000 slaves, and 3,8000, Asiatics and Indians. The sugar estates are immensity productive. Twenty-three of the principle plantations, comprising about one hundred thousand acres of land and 10,175 slaves are valued at £3,000,000. These twenty-three estates produced in 1859, 235,000 boxes, the worth of which was £4 each box, making in all £940,000. There are 1,600 sugar plantations in Cuba, the exported products of which amount to about \$10,000 per annum.

Consider Comet has been observed by Mr.

Another Comet has been observed by Mr.

James B. Tarnbull, which he describes in the London Duily News as visible to the naked eye. It may be seen, he says after dark, say about 9 o'clock, on a clear night, between the constellations of Cassiopeia and Andromeda, forming nearly a central point between the stars Shedir, Almach and Miarch. Even when viewed through the telescope it as yet exhibits no tail, simply a hazy, luminous mass, with a bright nucleus, from which he is inclined to think it is still very distant as it was long ere the receding comet, still seen through the telescope, lost its caudal appendage, of which, however, it is now shorn.

It is now said that there is to be a double matrimonial alliance between Italy and Portugal. Victor Emmanuel will marry Donna Maria Antonia, the King of Portugal's sister while Don Podro will take for a wife the King of Italy's second daughter, and will thus become the son-in-law of his brother-inlaw. It is suggested that the rapid recognition of Italy by Portugal is evidence of the probability of this arrangement.

JUDSON'S Mountain Herb Pills.

Amorg we present you with a perfect likeness of fexuce, a chief of a tribe of the strange Artee Nation, that once ruled Mexico. You will find a full account of him and his people in our Famphlets and Almanaca—to be had gratis, from the Agents for these Pills.

The Inventor and Manufacturer of "Judoon's Monacain Herb Pills," has spent the greater part of his life is traveling, having visited nearly every country in the world. He spent over six years among the Indians of the Rocky Mountains and of Mexico, and it was thus that the "MULTIAN HERB PILLS" were discovered. A very interestin account of his adventures there, you will find in our Almanac and Pamphlet.

It is an established fact, that all diseases arise from

IMPURE BLOOD! The blood is the life! and when any foreign or unhealthy matter gets mixed with it, it is at once distributed to every organ of the body. Every nerve feels the poison, and all the vital organs quickly complain. The stomach will not digest the food perfectly. The liver ceases to secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is feeble. The lungs become clogged with the poisonous matter; hence, a cough—and all from a slight insparity at the fountainhead of life—the Blood! As if you had thrown some sarth, for instance, in a pure spring, from which tran sing rivelet, in a few minutes the whole source of the stream becomes disturbed and discolored. As quickly does impure blood fly to every part, and leave its sting behind. All the passages become obstructed, and unless the obstruction is removed, the lamp of life some dies out.

These pills not only purify the blood, but regenerate all the secretions of the body; they are, therefore, unrivalled as a
