

is correct, we think, when remedies are to be used, in not simply mentioning them by name, as so many works do, and which is proper for larger works, but the actual combination in the form of prescription. This, we believe, is much better for students. Whether for student or busy practitioner, we can most heartily recommend the work, whether for the initial study of the work or for refreshing the memory. For its small cost it should be found on every student's and practitioner's table. H. L. R.

A Practical Treatise on Sexual Disorders of the Male and Female. By Robt. W. Taylor, M. D. Lea Brothers & Co., New York and Philadelphia, 1900.

This work is eminently a practical one, and not a compilation as so many are at present. It is evidently written largely from the author's own experience and not overburdened, and is just what the general practitioner requires. J. P.

PUBLISHERS DEPARTMENT.

KEEP TAB ON TIME.—Believing thoroughly that “a thing of beauty is a joy for ever,” and that an article of beauty and utility combined is worthy of preservation, The New York Pharmacal Association has prepared for distribution to the medical profession a handsome and artistic *perpetual* calendar, which is now ready for mailing. Instead of presenting a calendar at the beginning of the year, according to the usual custom, the above company prefers the season when the physician is not deluged with all sorts and conditions of chronological recorders, and is thus better enabled to welcome and appreciate such an addition to his office. The new Lactopeptine Perpetual Calendar is not intended for hanging upon the wall, but to stand upon the doctor's desk, and for this reason has a strong easel back to support it. The coloring is exceedingly soft and attractive, consisting of delicate shades of lavender, purple, crushed strawberry and buff yellow. The few words relative to Lactopeptine are entirely unobtrusive, and do not interfere in the least with the general artistic effect. In the near foreground on either side are two gracefully draped female figures with flowing hair; around the edges appear the various signs of the Zodiac.

One of these calendars will be sent to any physician who may request same.

SANMETTO IN PROSTATITIS AND CYSTITIS.—Dr. F. R. Dobson, of New Orleans, La., late Surgeon U.S.A., writing, says: “While Surgeon in First Division Hospital, stationed at Jacksonville, Fla., I had occasion to see an interesting case of prostatitis treated with Sanmetto, with entire success. The patient was a private in the Second Nebraska Vol., and his condition upon entering the hospital was deplorable, the bladder being distended with urine, the overflow dribbling constantly. His condition was traceable to gonorrhoeal infection. Since my return to New Orleans I treated with Sanmetto a case of purulent cystitis, which had resisted all other treatment. The result of the taking of one bottle of Sanmetto was permanent relief.”

AN ADDITIONAL HONOR.

We have just been advised of the award by the Judges of the Paris Exposition to Messrs. Wm. R. Warner & Co., of Philadelphia, New York and Chicago, of the highest medal prize, for their justly celebrated pharmaceutical products. This makes the 17th World's Fair highest prize, which has been awarded this well-known and justly celebrated firm, and we join in congratulations to Messrs. Wm. R. Warner & Co. over their well-merited and unbroken line of victories in competition with the world's manufacturers.
