FREDERICTON, N. B., OCTOBER 3, 1949

Our Policy

STATED briefly, our editorial policy is simple: to direct all our energies towards the publication of a better Brunswickan. The key to such an accomplishment is "responsibility." It all adds up to the support which the student body is willing to give the paper and the responsibility which the staff is willing to accept from the students. If the proper support of the paper by the student body is lacking, then it is natural enough that The Brunswickan will not reflect the interests of the majority of the students.

If this support is present however, then it is only up to the staff to publish the type of paper which the student majority desires. Thus it is through the combined efforts of both parties concerned that a measure of success can be attained. It is our sincere wish that The Brunswickan reach a higher pinnacle of success than ever before achieved. During the last week the response of the student body has indicated sufficiently that a progressive and aggressive staff can and will bring us much closer to our goal.

We hope, therefore, that you will not judge this year's Erunswickan by the first edition. At the present time we are in the process of reorganization. Under such circumstances The Brunswickan is bound to suffer for some time at least.

This reorganization will mean the introduction of many new faces to our masthead. We are confident that our recipe-new personnel with new ideas plus the old boys with experience-will prove a step forward in the right direction. We are still lacking in certain departments: we need more reporters, proofers, make-up assistants, columnists, and cartoonists. If you feel that you would like to serve on The Brunswickan staff drop into The Brunswickan office (K Hut-The Blot) and talk it over with the editors. Freshmen, particularly, are invited to offer their services.

Grinding the Axes

IN its colorful eighty-year history The Brunswickan has supported many causes and campaigns. Needless to say, there were times when the editor whistled the wrong tune and times when Brunswickan crusades have flopped miserably with a dismal thud. We have taken stands on student riots in Egypt, rebellions in South America, hunger in Hungary, Fascism, Communism, and every other-ism.

We talked about the co-eds (and found they didn't like the blunt truth); we discussed national politics and political clubs, harangued so-called imbeciles in the Student Council, pleaded for justice and fairplay; we criticized the local constabulary, the local barbers, the local press, and every other local institution; we talked about red elephants, invitations to disaster, mass sports participation.

We were isolationists in 1939 (much to the dismay of the campus imperialists); we opposed certain trade agreements which probably never affected the UNB Campus or even Canada; we wrote silly nonsense on April Fool's Day; we flattered and congratulated debaters, sports teams, chess players, university profs., prime ministers, and other characters. We had dir George E. Foster, Sir Charles G. D. Roberts, Bliss Carman. Gerry Waring (The Standard), Snoop, and Damon Bunion on our staff.

After hauling so many of our family skeletons out of the closet you probably think that we've got no more axes to grind! Probably we haven't, but now you take this matter of 50% as a passmark.

Yours Sincerely DICK ARMSTRONG

Editor-In-Chief

P.S. I would like to warn Mr. Hay that unless he coughs up the two and a half dollars for a 1949 Yearbook I'm afraid there may be a serious chance of the accidental loss of his lovely picture which was to adorn the pages of the 1949 Yearbook.

Ed's Note: Your reference to "Up The Hill" as being the only worthwhile publication on the campus is questionable. Personally I cannot seem to get along without a college directory. Secondly, the tone your letter suggests bribery: \$.50 profit this summer which I put in my piggy bank. However if you would use a wee bit more Bruce Whitehead-son of W.
