CD's are small, easy to store, easy to handle, easy to maintain. They offer tremendous dynamic range, no ticks or pops, virtually silent background and with a minimum of care, will stay that way forever, regardless of the number of plays. Best of all they are simple to use and are incredibly convenient. If you have not yet experienced a compact disc, you owe it to yourself to drop in for a demo. We have a selection of titles in stock.
