

Station where he was cautioned and charged with this offence. He asked to make a statement, produced herewith.

I then issued the accused with copies of the statements made.

Minlay Road at the scene of this accident is 17 feet 6 inches wide. It is of tarmac surface in good condition and was dry at the time.

It was a moonlight, but cloudy night and visibility was good. There are a number of trees at both sides of the road and the moon may have cast shadows.

At about 3:50 P.M. 2/10/44 the accused Gendron asked to see me, which I did and he requested to make a statement. I cautioned him and at his dictation took down the attached statement, a copy of which was handed to his accomplice.

I produce the statements referred to above. *Append "A"*
