

9. Forest plant products, including logs, tan bark, posts, poles, railway ties, cordwood, lumber and stone and quarry products, originating in any one of the states of Maine, Massachusetts, New Hampshire, Connecticut, and Rhode Island, five of the United States of America, shall not be admitted into Canada unless such forest plant products or stone and quarry products shall be accompanied by a certificate showing that they have been inspected by the United States Department of Agriculture and found free from gipsy moth. Each shipment shall be accompanied by such an inspection certificate, and the certificate shall accompany the bill of lading, way-bills or other memoranda pertaining to such shipments.

10. If on inspection, nursery stock or other vegetation or vegetable matter is found to be infested with any of the insects, pests or diseases hereinafter specified, it shall be destroyed to the extent deemed necessary by the inspector and in his presence. All cases, packages and packing in which such stock has been contained shall also be destroyed in the same manner.

11. An inspector shall have power to enter any lands, nursery or other premises where there is reason to believe that any of the insects, pests or diseases hereinafter specified are or may be present, or where there exist trees, shrubs, or other vegetation which prevent the successful control of the said insects, pests or diseases. An inspector shall give such instructions as may be necessary for the treatment or destruction of any tree, bush, crop or other vegetation or vegetable matter or the containers thereof, which may be found or suspected to be infected with, or constitute an obstacle to the successful control of any of the insects, pests or diseases hereinafter specified, and such instructions shall be carried out by the owner, or lessee of the infected, suspected or menacing vegetation, vegetable matter or containers thereof, and such remedial treatment shall be carried out and continued until the insect, pest or disease shall be deemed by the inspector to have been exterminated or the menace removed. The inspector shall have power to carry out the required treatment or destruction, if necessary.

12. It shall be illegal to sell, offer for sale or in any way dispose of or receive any trees, shrubs or other plants, vegetable matter or portions of the same, if the same are infested with any of the insects, pests or diseases hereinafter specified.

13. Potatoes offered for export to the United States must be free from injurious diseases and insect pests.

14. The owner, occupier or lessee of any premises or place where any of the insects, pests or diseases specified herein shall be found, shall immediately notify the Minister and shall also send to him specimens of such insects, pests or diseases.

15. The Minister may authorize the importation into Canada of any insect, pest or disease herein specified or any nursery stock, vegetation plant products, the importation of which is prohibited, but for scientific purposes only.

16. Compensation not exceeding two-thirds of the value as assessed by the inspector, of the vegetation or vegetable matter, or containers thereof, destroyed by the instructions of an inspector, may be granted by the Governor in Council upon the recommendation of the Minister, except in cases where these regulations are carried out under the direction of the Government of a province not granting compensation and in the case of potatoes or potato crops.

17. The regulations and amendments thereto made previously under the Destructive Insect and Pest Act are hereby repealed.

18. The destructive insects, pests and diseases to which the said Act shall apply shall include the following:—

San José Scale (*Aspidiotus perniciosus*).

Brown-tail Moth (*Euproctis chrysorrhoea*).

Woolly Aphis (*Eriosoma lanigera*).

West Indian Peach Scale (*Aulacaspis pentagona*).
