

But wandering oft, with brute unconscious gaze,  
 Man marks not THEE, marks not the mighty hand,  
 That ever-buff, wheels the silent spheres;  
 Works in the secret deep; shoots, steaming, thence  
 The fair profusion that o'er spreads the Spring:  
 Flings from the sun direct the flaming day;  
 Feeds every creature; hurls the tempest forth;  
 And, as on earth this grateful change revolves,  
 What transport touches all the springs of life.
