A Dollar Barometer Free

The Standard Barometer that we offer as a premium is one that is giving complete satisfaction to the many who have already taken advantage of our offer. It is a combined Barometer and Thermometer—the Thermometer telling you how hot it is—or cold—and the Barometer what the weather will be on the morrow.

What The Standard Barometer Will Do :

1. If the weather is to be fine, the substance of the composition will remain at the bottom, and the liquid will be clear.
2. PREVIOUS TO RAIN the substance will rise gradually and the liquid will be clear, with small particles moving about.
3. BEFORE A STORM OR HIGH WIND the substance will be partly at the top, and will have a feathery appearance, and the liquid will be heavy and in fermentation. In this it will usually give notice TWENTY-FOUR HOURS BEFORE THE WEATHER CHANGES.
4. IN WINTER, generally, the substance will rise rather high, in snowy weather or white frost it will be white, with small stars in motion.
5. IN SUMMER, the weather being warm and dry, the substance will be quite low.
6. To know what quarter the wind or storm comes from, you will observe the substance will lie closer to the bottle on the opposite side to that from which the storm or wind comes.

—\$1.00 is the value of this indispensable instrument. Any one sending us one new subscription to **THE FARMING WORLD** will receive this Barometer free, or anyone renewing his or her subscription and adding twenty-five cents will have one sent free of any expense.
