One of the modern barn plans prepared by our **Builders' Service Dept.**

Above is shown one of the modern barn plans prepared by our "Builders' Service Dept." Others are shown in a portfolio that will be mailed to you on receipt of the coupon attached to this ad, properly filled out.

If you will tell us the size of the barn you expect to build, and the number of cattle you want to house, our Board of Advisers, consisting of ten of the best barn builders and contractors in the Dominion, will co-operate with you to plan a building exactly suited to your own particular requirements.

This service is offered to you FREE of charge. It's our

way of showing our appreciation of the generous and hearty support the farmers and builders of Canada have given our products, particularly Preston Safe-Lock Shingles.

PRINCE EDWARD ISLAND

Preston Safe-Lock Shingles merit the tremendous demand they enjoy to-day, for they afford guaranteed protection against lightning. They keep out the rain, snow, moisture, wind and fire, too. They cost nothing for up-keep, as they never need painting or repairs. Our latest edition of "Truth About Roofing" booklet tells all aboutthem. We'll send a copy along with the Port-folio of Barn Plans. You want the Portfolio, that's certain, if you intend to build. So send the coupon by first mail Address it to Address it to
