diving without issue and without having made any will.

Also, can deceased's relatives claim any part of husband's property, he having nothing when married, and all the earnings of the farm having been invested in real estate in the husband's name?

A SUBSCRIBER (Ontario).

If a married woman dies without a will and leaves no issue, her husband will take one-half of her real and personal estate absolutely. The husband however, may elect to take his interest in his wife's real estate instead of his distribution share thereof.
