

good. Corn will be medium. Melons promise to yield an average crop. New potatoes are quoted here at \$3 to \$3.25 per bbl. in car lots.

At Montreal, three-pound picker beans are quoted at \$1.60 to \$1.65 per bushel.

FRUIT.

The supply of berries has ruled light. Raspberries are quoted at 13c. to 14c., and strawberries at 10c. to 15c. The season for the latter is about over. Gooseberries and currants are coming in more freely. Cherries are quoted at from \$1.50 to \$1.75, and cooking at 90c. to \$1.25; gooseberries, 90c. to \$1.10, and currants, \$1 to \$1.10 per basket.

DAIRY PRODUCTS.

The cheese market shows considerable weakness and there has been a falling off in values during the past week. Prices at the country boards last week ruled at about 11c. for colored as compared with 11.38c. the week previous, and 10.5c. to 10.75c. for white as compared with 11.10c. to 11.8c. There has been quite a falling off in the offerings and buyers and sellers are apart. There has been little selling, the producers evidently

ROCK SALT for horses and cattle, in tons and carloads. Toronto Salt Works, Toronto.

holding for higher values. The situation, considering the falling off in the make and the condition of the market would seem to warrant them in so doing. At the same time, it is well to remember that the make in the old land is large, which may have some effect on the market.

The butter market shows little change. Some of the Eastern Township creameries have obtained a little higher values than the week previous. Outside of this, prices rule steady. Montreal quotations rule from 20c. to 20.1-2c. for creamery. As far as exports go, the situation should favor a strong market, as the total shipments since May 1st amount to 15,900 packages, as compared with 13,743 packages for the corresponding period of last year. There is a good demand for butter here and prices are steady at 21c. to 21c. for creamery prints, and 19c. to 21c. for solids, and 17c. to 18c. for solids.

LIVE STOCK.

Receipts at the cattle markets here were larger last week and prices are lower. The bulk of the offerings continue to be the common to medium kind. The cattle market ruled dull, with good cattle 25c. per cwt. off, and common cattle 40c. to 50c. per cwt. off. Few exporters are offering, and those sold at from \$5 to \$5.25 per cwt. A better quality of cattle would bring \$5.50 per cwt. Export bulls sell at from \$4 to \$4.50 per cwt. Choice picked lots of butchers' cattle sell at \$4.90 to \$5.15, good cattle at \$4.50 to \$4.90, fair to good at \$4.30 to \$4.65, medium heifers and good cows at \$3.75 to \$4.25, and common cows at \$2.40 to \$3 per cwt. There are more stockers coming forward, chiefly weighing from 500 to 800 pounds and of inferior quality, selling from \$2.50 to \$3 per cwt., and likely to go lower. A few good feeders, at from 900 lbs. upwards, are offering, and bring from \$3.65 to \$3.80 per cwt. Steers, 750 to 850 lbs. each, sell for \$3.25 to \$3.75 per cwt. There is a demand for this quality, but the common stocker kind are not wanted.

The demand for milch cows is a little better, with prices ruling at from \$75 to \$97.50 each. There is a demand for springers that will come in about October. Prices for veal

calves are lower in sympathy with beef cattle. Quotations range from \$1.50 to \$6 per cwt. Prime, new milk-fed calves will bring \$6.50 per cwt.

Sheep and lambs are weaker, in keeping with the general tendency of the market. Export ewes sell at \$1.50 to \$4.75, bucks at \$1.75 to \$4, and culls at \$2 to \$3.75 per cwt.; lambs sell at \$6.75 to \$7.50 per cwt. At East Buffalo, lambs are quoted at \$5 to \$8 per cwt., yearlings, \$6 to \$9.50, wethers, \$8.50 to \$5.75, and ewes, \$4.50 to \$5 per cwt.

Hogs are the exception so far as a reduction in prices is concerned. They

Good Illustrations Attract Attention

We are past masters in the art of reproducing pictures of live stock that attract the attention of the buying public.
