Read one of many unsolicited letters we receive from our many satisfied customers:

Brantford, Ont., April 8, 1907.
The Model Incubator Co., Toronto.

Dear Sirs,—I am going to let you know what I have done with the Ch. s. A. Cyphers 1906 and 1907 brooders. Out of 255 Leghorn chicks placed in three brooders, I have lost one only to date, and chicks are very vigorous. I think this is all I need say, except that chicks were started on Model Nursery Food, and that there was 20 degrees of frost with a strong wind some nights.

I am, yours truly,

Last Mountain Valley Lands

We own thousands of acres of **Choice Selected Land** in this district, which is in the heart of the

GREAT WHEAT PLAINS
OF

SASKATCHEWAN

Ample TIMBER for All Purposes

Prof. Thos. Shaw, after personal inspection, writes: "This rich and beautiful farming section lying in the vicinity of Last Mountain Lake, embraces one of the finest areas in the Northwest. The land is undulating in this region, mostly open prairie. The soil is rich black vegetable loam, from one to two feet deep, and is underlaid with a clay subsoil. Frost, to injure the wheat, is virtually unknown. Being thus favored so highly by nature, it is not surprising that the production of wheat in this region is phenomenally high; in several instances forty to forty-five bushels per acre have been reaped. Oats, Barley, Flax and all small grains yield relatively as good as those of wheat. Potatoes grow most luxuriantly. Two or three years ago there were not more than thirty-five settlers in the entire area; now there are over a thousand, and others rapidly coming in."

Send 25c. for our beautiful new photographic souvenir, entitled "The Lake and Lands of Last Mountain Valley," which is not only a work of art, but a book of authentic information. We will also send Atlas of Canada, Maps, etc.
