It effects a saving of TWENTY-FIVE PER-CENT, in the cost of feeding. Pamplets with local certificates, sent free on uplication.

MEAD THE FOLLOWING TESTIMONAL FROM PAYMASTER GOOLD.

Halifax, N.S., 9th June, 1879.

DEAR SIE,-My cow having been under the eftet of lead poisoning, has been successfully treated by Mr. Byrne, Veterinary Surgeen, and having become much emaciated from its effects, I was in dueed to try your "Nutritious Condinaent." The

results have been most satisfacfory. After using the Condiment for a short time, she has not only regained her usual tone, but, instead of only a few quarts of milk daily, she is now yielding fourteen and the quality much richer, and we have plenty of tream for butter, and other purposes. I do believe the Condiment to be everything that is claimed for and can recommend it with confidence to

Bronchitis, Asthma,

and Consumption.

Whooping Cough,

The reputation it has attained, in consequence of the marvellous cures it has produced during the last half century, is a sufficient assurance to the public that it will continue to realize the happiest results that can be desired. In almost every section of country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. All who have tried it, acknowledge its superiority; and where its virtues are known, no one hesitates as to what medicine to employ to relieve the distress and suffering peculiar to pulmonary affections. CHERRY PECTORAL always affords instant relief, and performs rapid cures of the milder varieties of bronchial disorder, as well as the more formidable diseases of the lungs.

As a safeguard to children, amid the distressng diseases which beset the Throat and Chest of Childhood, it is invaluable; for, by its timely use, multitudes are rescued and restored to health. This medicine gains friends at every trial, as the cures it is constantly producing are too remarkable to be forgotten. No family should be without it, and those who have once used it

never will. Eniment Physicians throughout the country prescribe it, and Clergymen often recommend it from their knowledge of its effects.

While they cau used the foimation of fat and erated heat, they did not improve the bloed. The tonic effect upon the nerves and muscles was, cu cumscribed, and, owing to their diluted state. it volving large doses, they were also too expensive.

were, owing to their imperfect organization, found

The desiderata sought by Mr. Fellows, were : A convenient, palatable remedy;

Unalterable by time;

Harmloss, though used continuously, yet migh be discontinued at any time without any ill effe

Which would induce an appetite; Strengthen digestion ;

Promote assimilation ;

wanting in practice.

Create healthy blood ;

Strengthen the nerves and muscles;

Enable; the subject to successfully combat disease, And sufficiently economical for all.

All this has been indisputably attained. The success of the work is complete; and Fellows' rypophesphites stands foremost amongst the remedies for chronic organic diseases, possessing pro-perties to which no other medicines has ever aspired.

#### ABSTRACTE EFFECTS.

Fellows' Hypophosphites, on being introduced into the stomach, unites with the food, and immediately enters the circulation; and, being perfectly miscible with the blood, speedily pervades every part of the system. Its effects are first declared by a pulse slightly increased in fullness and strength general exaltation of the organic functions, and exhilaration of the intellectual powers. Its specific influence is on the brain and nervous substance. increasing the activity of the absorbents, and rtnewing the blood, thus causing the healthy muscular formation so necessary in restoring the functions of the previously weakened organs.

Being then, a tonic of the nervous and circulatory system, it follows that, when there is a demand for extrrordinary exarcion, its use is invaluable, since it supplies the waste through the circulation, and sustains the general system.

At no period of life is watchful care over the functions of the brain more requisite tdan during the acquisition of knowledge by the youth : plod. ding, persevering study requires a store of vigorou, nervous force, or the child may sink under th mental toil.

Stern necessity may compel the student to strain his powers beyond the dictates of prudeuce, and the early promise of excelience may be blighted thereby

To such we recommend Fellows' Hypophosphiter it will not only restore the sinking patient, but it will enable the toiling student to preserve his mental and nervous standard without detriment.

Norn-Be suspicious of persons who recommend any other article as "just as good" though bes ing a similar name, and of those who offer ke cheaper priced article.

NOTE.-It is only the Independent, well-postce and unselfish Physicians who can afford to pie. scribe this remedy. Experience has proved this The highest class medical men in every large city where it is known, recommend it.

Price \$1.50 per Bottle, \$7.50 for
