THE CENTER DRAFT—AN EXCLUSIVE, PATENTED OLIVER ADVANTAGE. The above illustration explains why Oliver Plows are so popular, why they stand the severest work, draw so nicely, and give such general satisfaction. The plow bases are located at the center of the load. Notice particularly that on Oliver Plows it is never necessary for even one horse to walk on the plowed ground. If extra large horses are used, the hitch can be moved to accommodate them.

Center Draft—Four Horses Abreast—With No Side Pressure

Study this illustration. It shows the famous Oliver Center Draft. See how the plow bases, removed from the sulky, are located at the center of the load—thus the greatest pulling power of all four horses is utilized, the draft is equal for each horse, and no horse walks on plowed ground.

The OLIVER ^{SULKY and} GANG PLOWS

are built in Hamilton, Ont., for Canadian farmers—to meet Canadian soil conditions. Note these other work-, time- and money-saving features: Long, easy curve to shares and mouldboards; extra high wheels with dust- and sand-proof adjustable hubs; castor wheel with proper slant; extra wide tires on all wheels; land wheel rolls parallel with frame. All these features mean light running, long wear, better work, and more of it.

The Oliver foot lift is placed so as to enable operator to use entire weight in lowering bottoms, easily and quickly penetrating hard ground or heavy vegetation. High throat and wide clearance between bottoms prevent choking. Cushion spring on land wheel insures level furrow on uneven ground. Most perfect oiling arrangement. All levers easy to reach and operate. Automatic safety trip prevents breakage if bottom strikes rock. Oliver bent frogs stand much greater strain than right-angle frogs.

It's to your interest to see Oliver Plows, both horse- and tractor-drawn—to compare their advantages and the material and workmanship with others. Oliver plows are sold in Canada by the International Harvester Company of America. The I.H.C. local agent will be glad to tell you all the facts, or, if you prefer, write to nearest branch house for any special information you desire.

SMALL FARMS IN BRITISH COLUMBIA

The Great Stillwell Trophy, awarded the best collection of potatoes grown in America, at Madison Square Garden, New York City, has just been won by this province.

This is conclusive evidence that British Columbia is a splendid field for truck gardening. Good prices are obtained. The climate is ideal.

Poultry raising, too, is yielding big returns. Much of this product is imported and even after the payment of duty a handsome profit is made.

Very little cash is needed to establish yourself on one of our poultry or truck garden farms at Cloverdale. You can buy from one acre up, on easy terms. Transportation facilities for marketing produce are excellent. Write today for full particulars, maps, etc.
