attrition.

"The power will win-shall win-whose resources are able longest to withstand the good movement. struggle. Germany understands that to-day. (Cheers.) Germany having failed to crush France, Germany having failed to crush Russia, understands now that if she has a chance to win it must be by ruining the trade of Britain. Unles she can dislocate and ruin the trade of Britain she knows that her last hope of success is gone. So Germany seeks to surround the British Isles with a cordon of submarines, with instructions to pounce upon every ship that comes in or goes out. That is the enemy's campaign.

food supply of the Empire merely by the utili-"And on top of it the Canadian Government sation of unutilised vacant lots. proposes that such British trade with this Dominion as may escape German submarines shall fall under the taxing machine of the Canadian Government. Is this a policy a credit to Canada? When the policy of decreasing the duties the refusal of the belligerents to exchange or on British goods was adopted in 1897 it was parole prisoners. In olden times prisoners of adopted as a bond of union and as an economic war were killed unless their captors thought it measure. It has proved both.
