of Commons is looked forward to by the press and public as the most im-portant utterance of the kind since the memorable speeches in which Viscount Grey discussed whether Great Britain would come into the

war. Mr. Lloyd George has recovered from his indisposition and was at work Monday. He will rise to address the Commons to-day at about 4 o'clock, and will probably speak. for an hour and a half.

The Prime Minister's speech will be not only a reply to the German peace note, but will also outline the whole policy of the new national government, the trend of which may be roughly anticipated from the fact that the new ministry is avowedly in power for the definite object "of carrying on the war with all the vigor the nation can command to a successful end."

Telegraphing from Copenhagen the correspondent of The Exchange Tele-graph Company quotes the Frank-furter Zeitung as saying:

"Germany does not want a cessa tion of fighting, but merely a confer-

about January 15 is suggested. While the conference is in session all the belligerents will be allowed to continue military operations." The Frank'urter Zeltung contin-
