CONFIDENTIAL REPORTS ON MINES.

Rossland, June 23, 1898.

Dear Sir,

The market for good stocks continues. Some new favorites have come in, notably Giant, which sells at 7c. At this price this is a good buy and one we can recommend.

Good Hope--This stock is perhaps more traded in than any other. The price is 31/2c to 5c. Something over 100,000 shares changed hands during the week.

Monte Christo--The sales of this stock continue, but the price has weakened to 36c. The shipments of ore continue and the price will soon reach 40c at least.

Deer Park -- The mine presents a good showing, and with the possible exception of Good Hope it is the favorite with local buyers. Price varies from 151/2c to 161/2c.

Giant -- We sold yesterday 50,000 shares of this stock to one client, and he asks for an option on a similar block. It is expected this stock will reach 10c in the near future. Men will be put to work repairing the wagon road immediately, and the ore on the dumps will be shipped. A large force will be at work about July 1.

Local buyers continue to make money buying options from us. The favorite stocks are Iron Mask, Good Hope, Giant, Deer Park, Monte Christo, Virginia and War Eagle.

Sincerely yours,

C. O'BRIEN REDDIN & Co.

P.S. -- Don't forget to wire or write us if you have good stocks to sell. We are buyers as well as sellers.
