FIRE AT MT. DENSON

Between 6 and 7 Sunday morning the saw mill of Capt. MacKinlay at Mt. Denson, together with the con-tents, was burned. Some parties re-siding at Aherdeen Beach opposite discovered the flames first, and gave the alarm. Notwithstanding the great efforts of the neighbors, the property was burned, and only by much exertion the fire was prevented from spreading and destroying other pro-perty. The mill contained machinery of the latest type, including planes, hand saw, rotaries, lathes, etc., which hand saw, rotaries, lathes, etc., which were entirely destroyed so far as use is concerned, with the exception of the hand saw, which may be fitted up again. The boiler, it is thought was only slightly injured.

A large lot of pine lumber piled in mill and some nearby outside was burned.

SOMETHING ABOUT FAITH CURES with the Boers, with loss of life on both sides. If the British could only get their ecomies in the open plain, they would make short work of them. The British, with their 200,000 men, are obliged to guard the property they have captured, and the garnsons taken by the Boers are generally small isolated bodies of Tommy Akins.

Much sympathy is felt for the

at least in part, to make the captain's
