DOCTOR URGED AN OPERATION

Instead I took Lydia E. Pinkham's Vegetable Compound and Was Cured.

Baldwin, Md.—"Nearly four years I suffered from organic troubles, nervousness and headaches and every month would have to stay in bed most of the time. Treatments would relieve me for a time but my doctor was always urging me to have an operation. My sister asked me to try Lydia E. Pinkham's Vegetable Compound before consenting to an operation. I took five bottles of it and it has completely cured me and my nerves are strong. I tell all my friends who have any trouble of this kind what Lydia E. Pinkham's Vegetable Compound has done for me."—NELLIE B. BARNES, 605 Calverton Rd., Baltimore, Md.

Sheep on Every Hill Side in New Brunswick

The New Brunswick Government through the Department of Agriculture has arranged with the Chartered Banks to help the Farmers—where assistance is needed—to buy Sheep.

The Department will not only arrange to buy Sheep FOR the Farmers, but will also buy good breeders FROM the Farmers—in other words, this branch of the Agricultural Department WILL SUPERVISE ALL PURCHASES AND SALES OF SHEEP.

IF A FARMER NEEDS CREDIT TO BUY SHEEP he should consult his local banker who has the necessary forms.

If you cannot buy sheep in your locality, inform the nearest banker who will notify the Agricultural Department, or, better still, notify the Department yourself and say how many Sheep you want.

KEEP YOUR EWE LAMBS

Every Fwe Lamk, Weighing 80 pounds and over and of reasonable quality, should be retained by farmers for breeding purposes. Sell the males and the inferior females for butcher purposes. If you have more ewe lambs than required, induce your neighbor to purchase.

THE VALUE OF WOOL

Unwashed wool of the best quality brought 80 cents a poked this spring, or about \$5.00 a fleece.

SIXTY MILLION SHEEP

Have been lost in Europe since the war started. Wool in enormous quantities is now required to clothe the soldiers, it will take an immense quantity to reclothe the returned men in civilian dress. Prices will likely be high for ten years.

New Brunswick has the pasture, hay, roots and a climate suited to sheep. Every farmers should consider investing in a small flock as a foundation. The first year will give approximately \$4.00 worth of wool der sheep, the sheep will cost about \$15.00. Is it not a good business proposition?

If you cannot purchase locally, place your order with your banker. Orders will be filled, if possible, in the order filed at this office through the banks.

County Council Report

(Continued from July 20th)

Coun. Anderson—The present time is not ripe for the purchase of a poor farm.

Coun. Carvell—While in favor of taking care of the poor, I don't like the resolution. It is to buy a poor farm and that means all that goes with it. This matter should be laid over for more consideration.

Coun. Moxon—Some members of the board always want to lay things over.

Coun. Melville—The argument that we can do this now much cheaper, I can't see. We will do well to get off with \$15,000 or 20,000 instead of \$7,000 as stated.

Coun. Perry (Kent)—We should have a large farm with lots of wood and not an elaborate building. This is important to our parish. \$7,4000 was used last year for support of poor. We can save dollars and provide for the poor better with a farm.

I can say to Coun. Lamont that the parish of Aberdeen would only be called upon to pay its proportion of interest on the bonds.

Coun. Keith was fully in sympathy with a municipal home, but was not sure that this was an opportune time. We don't know what taxes may be put upon us.

Coun. Tracy—A vote was carried some time ago that this matter be laid over till after the war.

Coun. Phillips—Moved an amendment that a committee of five be appointed to investigate and find out what a farm can be bought for and report at January session.

Coun. Gallagher withdrew his motion.

Committee appointed—Couns. Perry (Kent), Keith, Phillips, Robt. Bell, Clark.

Coun. Esley moved that the word three be changed to five for foot passage to the ferry in by-law No. 18 section 10. Seconded.

Coun. Perry (Kent) Ten cents is quite a charge and I am not sure that it is just correct. Motion carried.

The warden read the following from the Woman's Suffrage Association:

Secretary Municipal Council, Carleton, N. B.

Dear Sir:—

Enclosed find copy of Resolution last week. Will you please call your Ex. together as quickly as possible to deal with this matter, as the Government may proclaim the new Health Act early this session.

I remain, your truly
Lila M. W. Morris,
Corresponding Secretary.

On motion the communication was received.

The warden read the following:

Resolved:—

That this Woman's Suffrage Association notes with pleasure the reforms set forth in the Public Health Act and urged upon the Provincial Councils the wisdom and justice of appointing at least two women on each of the several Sub. Boards in the four divisions of the Province. The mothers, the girl workers and thousands of other women are deeply interested in the sanitation of our cities, towns and villages. We therefore claim the right to have an equal share with men in administering the several Sub Boards that are to be created in this Province

upon the proclamation of the new Health Act.

Ringworm on Child's Head

Caused Great Distress and Spread to Neck and Ears—Cure Was Speedily Effected When Right Treatment Was Recommended.

There is no disease of the skin more obstinate than ringworm, and the mother who writes this letter does so fully realizing what it will mean to other anxious mothers to know about Dr. Chase's Ointment.

This remarkable cure was brought about two years ago, and as there has been no return of the distressing disease there can be no doubt that the cure is permanent.

Mrs. D. Stebbins, Grand Bend, Ont., writes: "I am going to tell you of my experience with Dr. Chase's Ointment. My little girl had sores come out on her head which looked like ringworms. They were spreading fast, and I tried home treatment, but nothing helped her. I took her to the doctor, and he opened some of the sores, which were as big as the yoke of an egg. The sores gave me to put on was very severe, and the poor child would cry for an hour or more after an application. For six weeks it continued to spread all over her head, and came down to her neck and ears. She suffered terribly. At last some kind ladies told me about Dr. Chase's Ointment, so I got a box, and the first time I put it on she was relieved of pain, and the second time the swelling was all gone. Before we had finished the first box the sores were nearly all gone. I have told all the people around here about your Ointment, and I cannot praise it too much. It is now two years since my little girl was troubled in this way, and it never came back, so you can see she is completely cured. You are at liberty to use this statement for the benefit of others who may be suffering in a similar manner."

Joseph Brenner, J.P., endorses this statement as follows: "This is to certify that I am personally acquainted with Mrs. D. Stebbins of Grand Bend, Ont., and believe her statement with reference to Dr. Chase's Ointment to be true and correct."

Two Questions

With so many low-priced so-called anti-skids obtainable, would that great host of motorists pay more for Dunlop "Traction" Tread if they could get its merits elsewhere?

Also, would that other large list of car owners buy — "SPECIAL" — if tires which somewhat resemble it in appearance resembled it in efficiency?
