TROUSERS AT

### **INDUSTRIALUSE** OF ALCOHOL.

Mr. Bole's Motion for a Committee of Inquiry.

Inland Revenue Department Will Make the Inquiry.

The Postal Arrangements With the United States.

Ottawa, Feb. 26.-Considerable time of the afternoon session of the House commons was occupied in considera-of a resolution by Mr. Bole (Win report upon means for the more general use of alcohol for legitimate scientific and industrial operations without increasing the danger of its use as a this afternoon, potable spirit. The resolution was fin ally adopted, with an amendment, leav Government to make such

Rodolphe Lemieux defended the changes year in respect to postal ents with the United States, claiming that they had resulted in ourging the mails of undesirable litera-ture, and at the same time had increased to a marvellous extent the am

literature received from the old country.

Mr. Ames asked if the Minister of the Interior had given orders that do nutrior had given orders that documents from his department asked for by the Public Accounts Committee should not be produced for the use of members, ex-cept when the committee was in session. Hon. Frank Oliver—Yes.

Industrial Use of Alcohol.

Mr. Bole moved that "whereas the regulation requiring two years' storage of alcohol after distillation tends to create a monopoly in that article, and increase the price without increasing usefulness in the manufacture of medicinal and pharmaceutical preparations, perfumes, chemicals, dyes and scientific research; and that the potable article costs in the Canadian market over twenty-five times more than the primary cost of production, and, therefore, tends to restrict development in the lines mentioned, and prohibits its use as an economical agent in the wider field as an economical agent in the wider field of industrial activity, in the opinion of a commission to inquire into report upon a method by which alcohol n. be generally used in legitimate entific and industrial operations with-t increasing the danger of its use as notable spirit."

out increasing the danger of its use as a notable spirit."
During the course of a brief address in support of the resolution he said he wanted the customs duty on alcohol for manufacturing purposes reduced to twenty-five cents per realion, and, the excise duty abolished. He believed that if alcohol for manufacturing purposes were made free in respect to the excise duty the revenue to the Government would be increased five or ten times that at present obtained.

Mr. Miller urged the Government to give attention to the question of denatured alcohol. He suggested that the Inland Revenue Department should establish a denaturing warehouse in Toronto as an experiment.

Mr. Robitaille supported the resolution.

Hon. Wm. Templeman's Reply.

Mr. Templeman pointed out that the

Mr. Templeman pointed out that the sestion of denatured alcohol and that ised in the resolution was distinct. The difficulties surrounding Mr. Bole's proposition were very great. The direct loss to the revenue and the expense of supervision connected with duty-free alcohol for medicinal and pharmaceutical poses would be considerable, but that ald not give the department much conif the advantages were likely to be Mr. Bole had pictured. The rea tion to a duty-free alcohol for medi nal and pharmaceutical preparations was that after the articles were manu-factured and sent out the alcohol in them could be by redistillation or some chemical process be made drinkable. no country which permitted eutical preparations. The of products from which it could not be again taken and used as a potable or drinkable substance, but he did not think it possible that all the druggists of Canada should have access to alcohol, duty-free, for the purpose of manufacturing their preparations. He did not think a commission was necessary, but if that recommendation was withdrawn he had no objection to accepting the resolution.

Denatured Alcohol.

Mr. Perley approved the attitude

dr. Perley approved the attitude ten by Hon. Mr. Templeman. He nted to know what steps had been ten to carry out the wishes of the use, expressed in a former session, it denatured alcohol should be pro-led as cheaply as possible.

that denatured alcohol should be provided as cheaply as possible.

Ilr. Monk said that where it could be shown that alcohol was to be used for purely industrial purposes means should be established for its cheaper

admission.

Hon Mr. Templeman thought it would be possible to put on the market in the course of a few months denatured alcohol in the neighborhood of 50

ents a gallon.

Mr. Kemp read letters from several the resolufacturers supporting the resolu-It seemed to him that some such step as that advocated by the member for Winnipeg would help the manufacturers.

Mr. Bole expressed a willingness to

Mr. Bole expressed a willingness to umend the motion so as to authorize the dovernment to inquire into and report on the matter, instead of appointing a

ommission.

This was agreed to, and the amended notion carried.

The Postal Agreement.

Armstrong moved for papers, correspondence, etc., relating to changes in postal charges or regulations within the past two years between the United States and Canada. He asked that weeklies and periodicals be put back to the old rate, and condemned the Postmaster-General for the policy he had pursued.

master-General for the policy he had puffsued.

Mr. Lemieux saw no objection to the motion, for in respect to the convention between the United States and Canada he had nothing to conceal. The position he took last year was dictated by a desire to foster the mational spirit which the press of the country can create, and 2p protect the youth of Canada from the pernicious effects of the undesirable class of literature that was pouring into the country from the United States. Regulations had practically purged the mass of that objectionable and obscene

literature, and to revert to the rate of one cent per pound for magazines and periodicals would be to reopen the gates to undesirable literature. The results of the reduction in the rate on British magazines and newspapers, on the other hand, had been simply marvellous. In January of this year the number of bags containing British periodicals and newspapers had showed an increase of 347 per cent. compared with January of last year. He claimed that from the national, moral and commercial points of view the chaage mercial points of view the chnag which took place last year had bee most beneficial.

The motion carried.

The House adjourned at 6 o'clock.

### PERHAPS MURDER.

Unknown Toronto Man Drugged to Death In Detroit.

Detroit, Feb. 26 .- A well dressed, unidentified man, supposed to be from Toronto, was found unconscious on a Wabash train this morning and taken to the Detroit Sanitarium, where he died

Death was the result of morphir

Death was the result of morphine poisoning or from some other powerful drug. Coroner Parker and the police believe the dead man was the victim of robbers, as nothing of any value, not even an overcoat or satchel, was found upon his person.

Two railroad tickets, one purchased at the Grand Trunk, Toronto, on Jan. 24, for a round trip passage from Toronto to Buffalo, and the other purchased at Buffalo for a round trip passage from Buffalo to New Orleans, by way of Chicago, and ten cents, were found in his pockets.

The only means of identifying the dead man is his laundry mark, "C. M. L.," found upon his shirt and understaint, and the name Jess Applegath, 99 Yongo street, Toronto, found in the lining of his black stiff hat, and Scotch plaid travelling cap.

The dead man is about 37 years of a ge and has brown hair, brown eyes

age and has brown hair, brown eyes and a heavy brown mustache. From his general appearance it is be-lieved he is a clerk or employed in an

Name is Chilcott.

Buffalo, Feb. 26.—The man found dead in Detroit is E. Chilcott, of Toronto, a fireman. He left Buffalo a few days ago. Murder and robbery is MUST NOT USE BRAINS.

Conductors and Motormen on Street

Toronto, Feb. 27.-"Lady, we are posed to have brains, but the manage-ment of the road will not allow us to use them," was the quiet reply of a con-ductor on a Belt Line car last night to a lady who protested because she, with others, had to file into the car and with a desperate struggle get through a rear-end platform crowded with smokers and then to fight her way up the aisle of the car to the front to leave the car although she could have much more easily got out at the rear, but this the conductor refused her leave to do. When she entered the oar she re-monstrated with the conductor for not

AFRAID OF BOMB ARTISTS.

Alfonso's Proposed Visit to Barcelona Alarms Madrid Police.

Alarms Madrid Police.

Madrid, Feb. 26.—The announcement that King Alfonso will visit Barcelona in March, accompanied by Fremier Maura, is causing considerable stir and some anxiety among the King's well-wishers. The police of Barcelona have the reputation of inefficiency, and the fact that one or two bombs are exploded there weekly with disastrous regularity seems to make a Royal visit inopportune.

It is stated that King Alfonso's presence will synchronize with the arrival of a German squadron, and some politicians and newspapers declare that the visit will have identical importance with the King's journey to Cartagena to meet King Edward when the Anglo-Spanish entente was fixed up.

SEVERE MEASURES JUSTIFIED. volutionists Had Wrought tation in Russia.

London, Feb. 26.-The Right Rev. London, Feb. 26.—The Right Rev. Thomas Edward Wilkinson, Bishop for north and central Europe, writes to the Daily Mail from Riga, describing the devastation wrought in Russia generally, and particularly in the Baltic Provinces, by the Revolutionists, He declares that its extent is quite unknown in England, and fully justifies' the measure of repression adopted by the Russian Government.

"Whatever," concludes the Bishop, "may have been the destruction of life in the French Revolution, I doubt if the destruction of homes and property was as great in France, as in Russia."

TERRACE WILL BE TRIED.

No Truth in Story That Murderer is

to be Deported.

Toronto, Feb. 27.—The story appearing in one of the Toronto morning papers to the offect that Terrace, the young Englishman, who is imprisoned on a charge of murder at Brampton, will not be tried, is emphatically denied by Govarnment officials. It was alleged that Dr. Bruce Smith, Provincial Inspector of Prisons, had visited Brampton for the purpose of getting data on which the purpose of getting data on which to arrange for the deportation of Ter-pace as a lunatic. Dr. Bruce Smith yesrace as a lunatic. Dr. Bruce Smith yes-terday told the newspaper men at the Parliament buildings that he had not been at Brampton this year, and that there was no foundation in the deporta-tion story.

On Condition

### "O! MY POOR HEAD" Stop Those Headaches.

Headache and neuralgia are pro-counced signs of blood poisoning. This coisoning of the blood comes from the waste matter of the body being left in the system, instead of being regularly arried off by the bowels, kidneys and

skin. When the bowels do not move regularly, the refuse is absorbed by the blood. Thus, the blood is loaded with foul poisons which irritate the nerves. Poor skin action also causes headache and neuralgia. Impurities cannot escape through the akin, so the blood must take them up and deposit them on the nerves.

take them up and deposit them on the nerves.

If the bowels and skin are not ridding the system of waste, the kidneys try to do so and are overworked.

There is just one way to cure headaches and neuralgia—to regulate bowels, kidneys and skin so that all the poisons of the body will be properly corried off, "Fruita-tives" keep blood pure and rich—relieve the stomach and kidneys—regulate the bowels; and invigorate the skin to healthy action. "Fruita-tives" are a wonderful discovery, being a combination of fruit juices and tonics. 50a a box—six for \$2.50. At all dealers, or from "Fruita-tives," Limited, Otta-wa.

## LEO'S PENANCE.

Friday, has revealed an austere mode of life on the part of the martyred priest approaching the penance of early monk-ish times.

Priests and laymen alike are astound-

Priests and laymen alike are astounded by a discovery made in preparing the body for burial. Next to the skin Father Leo had wrapped about his waist and upper arms heavy bands of linked steel chains, and to each link was a hook, sharpened to a needle's point, attached in such fashion that each movement of the priest caused the hooks to pierce his flesh and to remind him of the life and death of Him in whose steps he struggled to follow.

Father Leo never spoke to his fellow-clergy of his mode of penance and no one in the monastery surmised it. His body and upper arms were entirely calloused, showing that when the pain became deadened because of the toughened skin he had taken the network of claws and adjusted it so that the pain with period force.

claws and adjusted it so that the pain might come again with renewed force,

### APPEAL OF CZAR.

EMPEROR NICHOLAS TRUSTS TO

nxious for Speedy Solution of Agrar Ian Problems-Large Deputation from Douma Received at Tsarskoe Selo-Cheers for Emperor.

St. Petersburg, Feb. 26.-Emperor Micholas received at Tsarskoe-Selo today a deputation from the Douma, numbering 320 and representing all parties excepting the Constitutional Democrats, the Radicals and the Poles. His Majesty made an address in which he said that the adoption of measures for the speedy solution of the agrarian problem on the basis of the observance of the rights to private property was the most important question before the Parliament. In making this recommendation the Emperorappeals again to the loyalty of the peasant masses of the empire.

In conclusion, his Majesty expressed his wishes for the happiness and prosperity of Russia and then made a sweeping bow to the Douma delegates. Then, with the Crown Prince between them bering 320 and representing all parties

with the Crown Prince between them the Emperor and the Empress moved through the assembled ranks of Deputhrough the assembled ranks of Deputies, stopping to greet each delegate and recalling to many of the members present that they had met before. The little Crown Prince was in high spirits and he pranced along between his parents. The presence of this little boy of four years was an enlivening feature of the reception.

Upon completing the circle the imperperor left he was cheered time and again by his visitors.

## **DREAMING** LIFE AWAY.

SENATORS OBJECT TO HON. WM.

Mr. Paterson Explains it as a Jocular Reference—Hon. Geo. W. Ross Moves for the Appointment of Several Committees.

Ottawa, Feb. 26.-In the Senate to day Senator Geo. W. Ross moved that standing committees be appointed. The committees he proposed, he said, would be committees of inquiry and investigation. It was held that the Senate was a court of review to regulate hasty legislation from the Commons. One became exceedingly tired of the repeated statements that the Senate was useless, and of such statements as that made recently by a Minister of the Crown, who said "the Senate was a body of old gentlemen who dreamed life away in perfect serenity." One could not characterize such a remark as that properly.

Senator William Ross, of Halifax, criticized the comments of Hon. Wm. Paterson on the Senate. It was wrong to say no man had refused to enter it. The committees he proposed, he said

such a remark as that properly.
Senator William Ross, of Halifax, criticized the comments of Hon. Wm.
Paterson on the Senate. It was wrong to say no man had refused to enter it.

Senator Sullivan seconded the motion of Senator Geo. W. Ross, and congratulated him on the brilliancy and thoroughness of his speech. He also congratulated him on the spirit of independence which he had shown since becoming a member of the Senate. This was worthy of cultivation in the upper House.

Hon. R. W. Scott-said that the dinner at which Hon. Mr. Paterson had spoken in Windsor was of a non-political character, and, being debarred from talking politics, Mr. Paterson was probably short of topics, and had referred to the Senate in the jocular way in which he had been reported. Mr. Paterson had respected that they had been reported. Mr. Rost said that the remark, he was certain, did not express the real views which Mr. Patters on had respecting the Senate. He advised Senator Ross to limit his most in the appointment of the Committees on Forestry and Agriculture, and a third on Labor and Immigration.

Senator Lougheed congratulated Senator Geo. W. Ross on his speech, but could not congratulated him on the Senate him on the Senator Beique declared that to a considerable extent he was in according the senate of State.

Senator Beique declared that to a considerable extent he was in according the senate of State.

Senator Beique declared that to a considerable extent he was in according the summary and sone of the following plans to the summary and summary and the summary and the summary and summary and the summary and the summary and summary and the summary and summa

tate. Senator Beique declared that to a considerable extent he was in accord with the proposal of Senator Ross, who was to be congratulated for raising the question.

Senator Poirer moved the adjournment of the debate.
