FRENCH-CANADIAN RUNS AMUCK AT WELLMAND

Wellmand, April 10.—A French-Canadian who has served for nearly two years with the French army, and whose name is presumed to be Ambrose, ran amuck in this vicinity and caused quite a sensation.

He arrived in Wellmand on Tuesday and later wandered into Thorold township, where Geo. Merrithew took him in during a thunderstorm. He refused to leave, and was put to bed. He then went to the home of Archie Vanderlip, where he started to break into the house by hacking at the windows with a knife, the blade of which was five inches long. Fearing an attack, Vanderlip fired at him, striking the demented man in the arm. County constables were notified who brought him to Welland Hospital. While unwatched he jumped from the second story of the hospital, receiving severe cuts. He is now confined in the hospital under police guard. His home is in Montreal, and he is about 42 years old.

MEN MUST PAY TO DRESS IN STYLE

No Decrease in Prices for Good Clothes, Chicago Tailors Say.

Chicago, April 10.—No decrease in the prices of medium and the better grade clothing, and possibly a moderate reduction in the lower grades containing reworked wool (shoddy) and cotton, that is the prospect for the fall and winter of 1919.

This statement was given out officially here today as representing the opinion of members of the National Association of Retail Clothiers and the National Association of the Clothing Manufacturers, who met here today to consider the situation. The basis of the situation lies in continued high prices for raw material and labor, it was said by the delegates through their spokesman, L. C. King, of Chicago.

SETTLED AT LAST

Mrs. Hamilton Gault Has Obtained Divorce

Montreal, April 10.—A special cable from Paris to the Montreal Star announces that Mrs. A. Hamilton Gault has obtained, in the French courts, a divorce from her husband, Lieut.-Col. Hamilton Gault, who raised the Princess Patricia's regiment.

M'KENZIE PROTESTS AGAINST SUBSIDIES U. E. O. IS STILL GROWING FAST

Ottawa, April 8.—A vigorous protest against subsidizing steamship lines to carry foodstuffs out of the country, while butter is selling at 67 cents per pound in Toronto and other centres was lodged by Daniel D. McKenzie, the Opposition Leader, in Parliament last night. Mr. McKenzie is sincere in his concern for the Canadian consumer and argued that it was not right to vote hundreds of thousands of dollars for subsidies to steamships while the poor people of the country were paying enormously high prices for foodstuffs and duty on boots, shoes, and clothing entering the country. "It is not good business," said Mr. McKenzie. Beef prices are enormously high, and before we grant subsidies for carrying beef out of the country, the home market should be something like normal.

Several New Branches Formed Women and Council of Agriculture

Th4 U. F. O. continues to make progress both east and west.

In Lincoln a county organization has been formed with Mr. H. St. Clair Fisher of Queenston, as director for the County and these Township directors: Louth, J. A. Willis; Caistor, Jno. M. Limburner; South Grimsby, Herbert Theal; North Grimsby, Murray Smith; Clinton, Levi Moyer; Granton, George Robertson; Niagara, L. H. Collard.

A branch of the U. F. O. has been formed at Jordan with these officers: Pres. S. C. Honsberger; Vice-Pres. Wm. Seull; Secy-Treas. J. A. Willis; Directors, Wm. Honsberger; E. Staff, Aaron Honsberger, W. P. Bigger, Frank Magin and G. S. Overholt.

Mr. John W. Taylor, M. A. Ph. D., son of Mr. Wilson Taylor, of the Collegiate Institute staff, of this city has been appointed Professor of Greek in Ohio University, Athens, O. Dr. Taylor is a graduate of Victoria Collegiate, Toronto.

The high price of butter is the best advertisement Oleomargarine ever got. The demand is increasing faster than the supply, which is the proof on record.

The Agricultural Editor of The Globe, says, the peach trees have wintered well, and promise an abundant crop, also cherries and plums. This appears to be about the opinion of the fruit men throughout the Niagara District.

TO FIGHT BOLSHEVISM

Practically the entire European strength of the American Red Cross is being mobilized for a campaign against Bolshivism in the Balkans and outlying non-Bolshevik portions of Russia, says a despatch from Toronto Globe. This action has been ordered by the Red Cross headquarters at Washington, following a direct request from the American Government.

It had been previously planned to withdraw the Red Cross from Europe, but the alarming tendency of Bolshivism to spread to southern Europe and to those parts of Russia hitherto not infected caused the authorities at Washington to seek the aid of the Red Cross in battling this evil.

American Red Cross Commissioners for civilian relief have already been sent into Albania, Serbia, Romania and Bulgaria, and an effort is being made to get one into Odessa, from which point it will operate in Southern Russia. All this work is being directed by Lieut.-Col. Henry W. Johnson of Richmond, Va. He has been in charge of Red Cross work in Italy, but is now establishing headquarters at Constantinople, at which Port Balkan and Russian Commissions will be based.

NO INCREASE

Arrangements have been made by Russell T. Keley for a meeting of the women's associations to discuss the butter problem. Mr. Keley has invited the women's institutes in Bradford, Brantford, Caledonia, West Flamboro', Troy and Ancaster and the meeting will be held some time during the week.

A good many householders are using margarine and say that they do not tell the difference between a good grade of margarine and the far more costly butter. Some say that they are now selling eight times as much as they did a few weeks previous to the increase of butter prices.

Rumors have been going around the city that the price of margarine will take an increase within a short time but the managers of the large companies, making margarine say this is not so. The market is a little uncertain at the present time, but the increase of price, if any, will scarcely be noticeable.—Hamilton Times.

RURAL ROAD BUILDING

Clinton township will benefit by the building of two and a half miles of new tar macadam roadway this season out of the thirty miles of the proposed county system. The cost has been figured at \$20,000. One mile of this macadam will be laid down on road No. 11, and one and a half miles in Clinton's portion of the town line between here and Louth. The latter township will also get half one and a half miles completed, so that there will be an entirely new highway from the main road to the experimental station. The government will be asked for a fair sum to aid in the work along the front of the station.

Lt. Col. Cline of the 88th Machine Gun Battery is returning from England to his home in Grimsby and will bring along with him the colors of that regiment.

It may interest those who are kicking at the price of butter, to know that the ban against the importation of unset diamonds, into Canada has been lifted.
