The building Lots contain one fifth of an acre each, and fronting upon the main street for a distance of 80 rods, are a number of very valuable lots for Stores, Hotela, and to business men in general they are particularly desirable. On the other streets a number of Lots will be offered for sale, well adapted for residences for Mechanics and others. The Village of Eveter and its advantages are so well known that what is known as puffing would be in this case worse than useless.—The situation on both sides of the Sable River is not only beautiful but advantageous, while every facility is afforded for machinery. Aiready two Grist Mills, two Saw Mills, as chines, are in operation, and all doing as extensive business. It is in contemplation to crect a Cotton Factory on an extensive scale in the place, as soon as arrantements now in progress are completed. The surrounding country is too well known to need any description it may emphatically be termed the garden of Canada, for cereals of eyery description it has few equals, and no superior—There are three schools in the village, and four churches, and the inhabitants, of course, enterprising, moral and industrious. Several Park Lots will be sold in the rear of the building Lots, confishing flow faces in each Lot. Bonds will be given for a ded when the purchase money down, or a proved notes at three months, the balance in four equal annual instalments with interest.
