## TO-DAY'S

## Messages.

10.30 A.M.

## SURROUND BULGARIANS.

ATHENS, To-day.—Franco-German troops have surrounded the Bulgarian forces in north-western Macedonia which are falling back precipitately, according to reports to the Exchange here.

## BRITISH CASUALTIES.

LONDON, To-day.—The official casualty lists for the last fortnight of August contain the names of 603 officers killed, 1,396 wounded, 93 missing, total 2,092. This brings the losses in officers of the British Army since the commencement of the war to 41,041, of which 12,045 were killed or died of wounds, 26,976 wounded and 2,092 missing. During the fortnight, Brigadier General Potter was wounded and Brigadier General Buckle killed.

## PROGRESS BY FRENCH.

PARIS, To-day.—South of Comblès on the Somme front the French carried another group of German trenches, according to an official from the War Office to-night. Desperate fighting continues around Denicourt, while actions both in the Champagne district and on the Verdun front, where the French captured a trench on Deadman's Hill, are recorded.

## GERMANS ADMIT REVERSES.

BERLIN, To-day.—The abandonment by the Germans of the villages of Berny and Denicourt, together with the positions between Barleux and Vermandovillers south of the River Somme, is reported in today's official statement. North of the River, the statement says, fighting developed favorable to the Germans.

## FOOD DISTRESS IN VIENNA.

NEW YORK, To-day.—A News Agency despatch from London says: Food disorders has broken out in Vienna, said a Geneva despatch to the Exchange. Beef is selling at \$4 per pound, rice at \$2 per pound. There is terrible distress among the families of working men, the despatch added.

## GERMANS CLAIM VICTORY.

BERLIN, To-day.—A German attack against the Russians, who are attempting to capture the Galician town of Halicz, resulted in the defeat of the Russians, who lost the greater portion of the territory gained on Saturday, the war office announced to-day. In addition to inflicting heavy casualties on the Russians, the Germans took 3,500 prisoners and 16 machine guns.

## THE QUESTION OF NEUTRAL MAILS.

WASHINGTON, To-day.—Britain's reply to the American note protesting against the seizure and censorship of neutral mails is on the way to Washington. It is understood to be largely a repetition of the argument in justification of the policy of the Allies contained in the preliminary memorandum received here last February. At the British Embassy to-day it was stated that the Allies desired to lighten the censorship as much as possible, and that it was with this end in view that a series of conferences to be held in New York this week between the leading American exporters and Sir Richard Crawford, trade advisor to the Embassy, had been arranged. The Embassy officials specifically denied the cable reports from Berlin that Britain had suspended

ed the cable communication to Holland and Denmark, and practically cut off the mail communication between these countries and the outside world.

## LONDON BUDGET.

LONDON, To-day.—Both north and south of the Somme in France, the British and French troops at various points are keeping up their vigorous offensive against the Germans, and have achieved further successes and put down strong German counter attacks. To the south of Comblès the French took additional trenches, making stronger their investment of the little town, which is now almost completely surrounded. Having evacuated the village of Denicourt south of the River, the Germans have been driven back southward about two-thirds of a mile toward Ahaincourt. South of Barleux a German trench west of Horny has been captured. Fierce artillery fighting is still in progress in the sectors of the Peronne-Bapaume Road recently captured by the French. During Sunday and Monday more than 1,000 Germans were made prisoners by the French in the Denicourt sector. There is considerable artillery activity in the Champagne region. On the Verdun front the French have captured a trench in the southern slope of the famous Deadman's Hill.

To stem the tide of the advance of the armies of the Central Powers in the Dobruja region in Roumania, the Roumanians and Russians have ceased their retreat, and definitely set down their battle line. This extends along the front of Rachova-Tropadina-Tuzla running from the Black Sea to the Danube just south of the ancient double ramparts known as "Troians Wall," which begin at Constanza on the sea and run westward to the river. Both sides report fresh advances in this region, while in Transylvania the Roumanians are reported to be keeping up their progress against the Teutonic Allies. Petrograd is silent with regard to the new big offensive started by the Russians from the Pripiet marshes region in Russia down to the Carpathians, but Berlin says the Germans have turned the attack along the Narayuvko River in Galicia, and gained the greater portion of the territory lost to the Russians on Saturday and inflicted heavy casualties on the Russians and made 3,500 prisoners. In the Carpathians along the Zlota-Lipa River between the Sereth and Stripa Rivers west of Lutsk, the Russian attack was repulsed with heavy losses. In Macedonia the French troops have captured the town of Florina in Greece from the Bulgarians, who are reported by Paris to be retreating in disorder to the northwest in the direction of Monastir. In the Lake Ostrovo region near Jerna the Serbians have gained additional ground. On the Dorian front, where the British are engaged, only artillery engagements have taken place. Several successes of the Turks are told in a Constantinople official statement. British cavalry detachments endeavoring to advance east from the Suez Canal and an attempt by the British to attack in the Felahie sector in Mesopotamia were repulsed by the Turks. All German ports in East Africa are now in the hands of the British. Lindi and Mikindani having been evacuated, in addition Germany has been driven from the Unguru Hills. A junction has been effected by the British troops near Kisaki. The Italians are still holding their newly acquired positions on the Carso front despite vigorous attacks by the Austrians, which were preceded by heavy bombardments.

## GREEK TALK.

PARIS, To-day.—The populations of Mytilene and Lemnos have addressed an appeal to King Constantine, beseeching him to adopt the national policy and save the nation and his throne, says a despatch to the Havas Agency from Athens. Col. Loukakis, who is now at Saloniki, says a correspondent, declares that Commander Harjopoulos of the Kavala garrison announced to the officers

there that Field Marshal Von Hindenburg had assured him that the Greek army had been made prisoners as a result of the Bulgarians' demand. Former Premier Vassilopoulos, on learning that the colors of a certain regiment at Kavala had fallen into the hands of the Bulgarians.

12.30 P.M.

## WHISTLING TO KEEP UP THEIR COURAGE.

BERLIN, To-day.—The mass attack by the British along the Somme front on Friday was, according to advices reaching here, apparently carried out only by means of the concentration of the entire British forces. The Germans declare that there is hardly a French or British division left. The Germans, nevertheless, are not at all disposed to give way to any illusion that the French army has been completely weakened, although it is asserted in official quarters that the latest battle has served to convince them again that the Germans chief opponent in the west is France. On Sunday while the Germans were making counter-attacks both the British and French continued their efforts at various points along the line, particularly the British between Thiepval and Combles. These efforts, it is announced, were brought to a standstill. The French concentrated their efforts at Bouchavesnes, but were thrown back. The belief is held in Berlin that even if Germany's opponents have not been completely weakened the continuance of the attacks with their former intensity is an impossibility, because the Anglo-French offensive, especially that of the last week, has cost them so heavy. Reports from the front state that little as the German troops like to retreat, this policy is preferred, in that thereby lives can be saved at the expense of comparatively unimportant territory.

1.30 P.M.

## CORRESPONDENT DESCRIBES THE FIGHT.

British Front in France, via London, To-day.—The most dramatic and picturesque battle of the British Army in all its two years in France was fought on September 15th. Here is the story of how all kinds of men from the ends of the earth took part in this mighty conflict. In several dressing stations this week the correspondent has seen Canadians, New Zealanders, English, Scotch, Irish, Newfoundlanders and Americans. There were some of the men of the many countries who took part in the now historic battle, and with a few exceptions went into action those armoured motor cars called tanks which are to the credit of a quiet officer of the engineering corps. When the correspondent met this officer six months ago and asked him what job he was now on he replied: "Sh-sh-sh! Don't tell." It was the anxiety that the wonderful business of this battle to-day. When the correspondent was calling on a Canadian Brigadier, it was the Canadian Brigadier looking like a pre-historic monster in the skin of modern armor and with engines inside, which took him across the field of shell craters wearing his way with phytic adaptability by all irregularities up to the door of the Brigadier's dugout. The Brigadier, looking like a pre-historic monster in the skin of modern armor and with engines inside, which took him across the field of shell craters wearing his way with phytic adaptability by all irregularities up to the door of the Brigadier's dugout. The Brigadier, looking like a pre-historic monster in the skin of modern armor and with engines inside, which took him across the field of shell craters wearing his way with phytic adaptability by all irregularities up to the door of the Brigadier's dugout.
