

Speech Delivered at Opening N. B. S. Garden Party.

The honor of opening the N.B.S. Garden Party held at Brookfield, Cowan's Farm on Wednesday afternoon last, devolved upon Mr. Geo. W. B. Ayre, Honorary President of the Society. The address delivered by that gentleman on the occasion referred to was so brimful of enthusiasm for the future of this grand old organization, and so optimistic and hopeful, presaging that the Society will yet arise phoenix like and become stronger than ever, numerically, financially and benevolently, that we take the liberty of giving it space to-day, with the hope that the anticipations of the speaker will be realized, and that in a short time, all the lost ground will have been recovered and the N.B.S. once more become possessed of its own.

THE SPEECH.

Ladies and Gentlemen,—I feel highly honoured at having been asked by the President of the Newfoundland British Society to be present this afternoon and open your Garden Party. This is the third time I have been honoured by your Society. I was made an Honorary Member, I was made Honorary President and now again I am honoured. They say that the third time is lucky. I hope it will prove lucky as far as this party is concerned. I hope it will prove lucky as far as the Society is concerned. I hope it will prove lucky as far as the ladies and gentlemen here present are concerned and I

hope and trust that it will prove lucky as far as I am concerned. When you consider that this is the first occasion on which I have ever been asked to do anything of this kind, and when you consider that the party is being held in the midst of an exceptionally prosperous and fertile part of our agricultural country, knowing the number of cabbages, turnips and eggs that are so near and so easily available, do you not think that I have shown great pluck in standing before you this afternoon to address you. Less than a year ago the Victoria Cross and I hope that you will appreciate what risks I run, but I believe that my shortcomings will be overlooked, that I have entrusted my person to those who are friendly disposed towards me, and who will in the interests of the Society supply the many deficiencies which will be plainly apparent in my first venture of this kind.

Little did I think in days gone by, when one of the greatest pleasures of my life was to attend the entertainments in the afternoon preceding the Annual Soiree, which were given by the members and their wives to the children. Only the Sunday School Picnic rivalled this pleasurable event. I can now recall the tables laden with good things, the ladies, busy, seeing that every one was being properly attended to; the visit of the officers to the room; Mr. Edward Bennett, father of Mr. John R. Bennett, at the head of the room, welcoming the gathering and hoping that we were enjoying ourselves. When I recall the names of Messrs. Carnell, McCoubrey, Hughes, Past Presidents of this venerable Society; when I think of the great benefit it has been to the Englishman of days gone by, of the benevolence which it has accomplished,

when I think of its membership roll which must have been in the neighbourhood of six hundred and when I think of its magnificent hall, I feel highly honoured that I should be selected to, to-day, to open the Garden Party. While I recall the past glories of this honourable Society I feel sorry that to-day it has no hall but occupies rooms at a rental in a building that should be the nucleus of the Society for years to come, I feel sorry that its membership is to-day nearer one hundred than six, but my sorrow is touched with pride when I remember that there are still hearts faithful to the traditions of their fathers, men and women who are proud to be members of the British Society who do not, like rats, leave a ship when they think it is sinking. These are the class of people who bring safety to port the vessel that has been heavily buffeted by the winds and waves of affliction. These are the kind of people who have made the British Empire what it is, the greatest world power ever seen. These

Pure as Sea Breezes

Windsor Table Salt

THE CANADIAN SALT CO. LIMITED

are the people who will, in the not distant future, once more put the British Society in the front rank of the Societies of Newfoundland, so that to be known as a member of the Newfoundland British Society will be a passport anywhere within or without the country. Uninterrupted success is not always good. A smooth sea never made a skilful mariner. It should be the nucleus of the Society for years to come, I feel sorry that its membership is to-day nearer one hundred than six, but my sorrow is touched with pride when I remember that there are still hearts faithful to the traditions of their fathers, men and women who are proud to be members of the British Society who do not, like rats, leave a ship when they think it is sinking. These are the class of people who bring safety to port the vessel that has been heavily buffeted by the winds and waves of affliction. These are the kind of people who have made the British Empire what it is, the greatest world power ever seen. These

Ladies and gentlemen be of good cheer. Good times will come again for the Newfoundland British Society. I now declare this Garden Party open.

Instantly Beautify Your Complexion

Thousands of girls and women everywhere proclaim DERWILLO the greatest beautifier yet discovered. It instantly gives the skin that rosy white appearance every normal woman craves. Over five hundred thousand are using it in place of face powder, as it stays on until you wash it off. It is so life-like in appearance that it is impossible to detect it, and it gives you a youthful skin "every one just loves to touch." It is especially recommended as a protection to the skin, for shiny nose, freckles, tan, blackheads, and sallow dark rough skin. Try it to-day on your face, neck, hands and arms. Yes, it's absolutely harmless, even on the most delicate skin. At all toilet counters everywhere. M. Connors, A. W. Kennedy.

A.A.A. Will Meet Council

At a meeting of the Amateur Athletic Association held last night, Mr. G. W. B. Ayre presided, and there was a large attendance of those interested in Field Sports. A communication from the Secretary of the City Council, Mr. J. J. Mahoney, was read. The letter stated that Solicitor Carter had reported favourably as to the proposal that the Parade Grounds be passed over to the Association for the purpose of city athletics, and requested that a committee be appointed to meet the Council to finalize the transfer. The following committee was selected to represent the A.A.A.: Messrs. Chas. E. Hunt and Thos. W. Sparkes (Football), C. A. Jeffreys and J. M. Tobin (Hockey), J. B. Orr and F. V. Chessman (Baseball) with President Ayre and Secretary Grace. These will meet the Council at 8.30 to-night at the City Hall, when it is hoped that the matter will be finalized.

Accused Acquitted.

A telegram from Burin yesterday advises that the trial of Joseph Goldstone, for arson, took place on Wednesday before Judge Maguire, and the case occupied the attention of the court for the whole day. Summers, K. C., Deputy Minister of Justice, appeared for the Crown and Higgins, K. C., M.H.A., for the defense. At the conclusion of evidence and addresses of Counsel the accused was acquitted.

The Price of Sugar.

Editor Evening Telegram.
Dear Sir,—As sugar has been advancing during the past few weeks and market is strong we submit figures showing present value of sugar in barrels, as follows:

Cost f.o.b. New York	..\$ 4.40
Exchange51
Freight50
Insurance08
Bank charges & Export fee03
Interest06
Leakage05
Wharfage02
Duty63
Telegrams01
Importers' profit10
Cartage in and out Labor, Insurance and Interest17
Jobbers' gross profit25
	\$12.25
Cost of bags, twine and weighing	1.00
Retailers' profit75
	\$14.00

From the foregoing you will note that the combined profit of Importers, Jobbers and Retailers on cash sales are \$1.10 per 100 lbs. When interest on time accounts is deducted the net profits made by Importers, Jobbers and Retailers are less than 1/4 of 1 cent per pound. The Refiners' profit on present selling price does not exceed 1/4 of 1c. per pound and the producer in Cuba is selling at a loss. Present low prices are caused by the large surplus of sugar in Cuba and it is predicted that sugar will advance 2 cents per pound at least, when stocks are reduced to normal. The Newfoundland Government got a profit of over 6 cents on sugar (duty) and if sugar was on the free market consumers would be buying at 8 or 9 cents per pound. We refer you to Sir P. T. McGrath or Hon. A. W. Mews, either of whom can assure you that the figures submitted are correct. Yours truly,
IMPORTERS.
