IRON IN THE BLOOD.
The necessity of a due proportion of iron in the blood is well known to all medical men; when it becomes reduced from any cause whatever, the whole system suffers, the weakest point being first attacked, and a feeling of languor, lassitude and "all-goneness" pervades the system. Stimulants only afford temporary relief, and have the same effect as giving a tired horse the whip instead of oats. The true remedy is to supply the blood with the necessary quantity of iron. This can be done by using the

PERUVIAN SYRUP,
a proteined solution of the protoxide of iron, which is so prepared that it assimilates at once with the blood, giving strength, vigor and new life to the whole system.
To take medicine to cure diseases occasioned by a deficiency of iron in the blood, without restoring to the system, is like trying to repair a building when the foundation is gone.
An eminent divine says: "I have been using the Peruvian Syrup for some time past—it gives me new vigour, buoyancy of spirits, elasticity of muscle."
Famphlets containing certificates of cures, and recommendations from some of the most eminent physicians, clergymen and others, will be sent free to any address.
The genuine has PERUVIAN SYRUP blown in the glass. Sold by all druggists.
