ST. GEORGE'S SOCIETY AND CANON RICHARDSON.

To the Editor of the "Advertiser": In your report of the meeting of St. George's Society in Friday's issue, the name of Canon Richardson is prominently men-tioned as having refused to hold service in his church for the St. George's Society if they brought a band with them. I hope no one will think that the Canon is in any way to be blamed, as he did not refuse from any wish to be disobliging, but merely by force of the resolution passed by the clerical pipe, filling the bowl with a pocket- no member of that committee ever heard of such a resolution until the fourth day after preach, when he sent me a message that such a resolution was in force and which he had apparently forgotten. Yours truly, W. C. L. Gill, chairman of the com-

Mrs. Cox is the first woman who has been successful in these monthly competitions, which have now been in progress for the past year. The successful lady is 40 years of age, and styles herself a "self-made woman." She was left a widow at 20, with two small children, and thrown entirely on her own resources. While engaged in daily labor to support herself and children, she experimented with various ideas, and finally evolved a work table, supplied with numerous conveniences much appreciated by women. Although somewhat stinted as to means, she bravely undertook to patent her invention, and having submitted it to Messrs. Wedderburn & Co., in connec-tion with their patent awards, received the prize of \$150 in the February con-
