some to that. All of this was in Iavor of the Liberal party, and besides this there were several other influences at work that would aid them very materially. Altogether the political cutlook for the Liberals was very encouraging, especially in Outario and the west.

Of these and many other kindred subtest did Sir Richard talk.

Spirited Debate on the Prohibition Question.

Strong Drink a Curse to Society and

ings for the benefit of their fellowmen or for the benefit of the community and of

Mr. George Burrill,

Mr. Geo. Burrill, for lack of a representative of the liquor interests, undertook to debate the question from the liquor standpoint. He agreed with Mr. Asiplant that the question mas purely a seifish one; in fact, the temperance people adopted a dog in the manger attitude; one that said "I don't drink this and you shall not." or "I don't eat this and you shall not." Poverty, he said, was not altogether a result of drink and laziness; nearly ail poverty was a result of drink and weaith and haziness, principally the result of the latter. Drinking was not an unnatural thing. It was just as natural as eating. If a man took a moderate amount of liquor it would do no harm. Because a man made a gutton of himself and ate too much pork, and pork made a man billous, would they do away with the hog? Show him a glutton and a drunkard and he would snow two men that were on a par, Mr. George Burrill, would they do away with the hog? Show him a gluton and a drunkrd and he would show two men that were on a par, with a slight balance in favor of the drunkard. Did they ever stop to think of the great suffering that excesses of all kinds caused to generations yet unborn? Was it the drink traffic that gave employment to the vast army of doctors? He had often seen a gentleman in a pigsty, but he did not necessarily roll in the mud because the pig did. He laid the cause of crime on a lack of cducation. Crime was always indirectly caused by something back of intemperance and that something could only be bred out of a man. He did not think that any person could be legislated out of any habit.

person could be legislated out of any habit.

Ex. Mayor Taylor.

"The reason why I would east my influence and vote in favor of temperance," said ex. Mayor Geo. Taylor, "is simply this: From the great mass of evidence that has been brought before me in the period of my life in this city and in the Northwest, from the actual state of distress that has been brought on people and families that I know through the habits of drink, I could not tonight stand here and advocate for one moment the side of the tiquor men as long as I felt that I had a soul within my body. "Pin"

Sesame.

Everyone may not know what this means. It refers to a mysterious door that opened only by the magic touch of a wonderful person. Last week the mysterious door of trade flew wide open when magically touched by Puritan Pins. These pins have been in use in the United States for 50 years, and are still the popular pins over there. The Puritan Pin is a good article, is a perfect article. We are introducing them in London for the manufacturers.

To enable us to do this quick-ly they have sent us a large number of beautiful satin-finished silver-plated Pin Trays. We are giving one of these with every package of pins. The pins cost no more than the old kind, and are tar superior. The pretty little Pin Tray is a present. Last week we gave away a very large number. 1,000 sample cards of Puritan Pins to be given away. Call and get one.

INCENDIARISM BY BOYS.

Nine Hamilton Lads of Tonder Years Answer to the Charge of Arson, COFFEE HOUSE MARKET SQUARE.

Answer to the Charge of Arson.

HAMILTON, Dec. 6.—Nine lads, their ages ranging from 7 to 14 years, faced the magistrate to-day on the serious charge of arson.

William Montgomery, H. Dowdy, George Gerrard, Charles Yates and Thomas Keenan pleaded guilty to the charge of having set fire to the Napier street building. Mr. S. F. Washington appeared for Yates and told the magistrate that the latter had merely obliged the boys with some coal oil from a can which he was taking home, and had then stood by and watched the fire. Samuel Brittain, John Maddigan and C. Markett pleaded guilty to the charges of setting fire to Mr. Milly' to the charges of setting fire to Mr. Milly'

Maddigan and C. Markett pleaded guilty to the charges of setting fire to Mr. Mills' house on Bay street three times. W. Hennessy was also charged on the same count, but did not appear.

Chief McKinnon explained that the boys were being prosecuted to keep them from committing acts of graver import. He did not desire to press for severe punishment as long as the lads were made to understand that such conduct in future would not be tolerated. Both buildings which the boys had tried to burn down would be but small loss, having been unoccupied for some

The magistrate expressed the opinion that serious offenses by boys were on the increase in the city, and decided to remand all the prisoners to jail until to-marrow for sentence. Spending a day and night in jail is expected to have a beneficiary effect on their spirits if not contained.

Liberal Tariff Platform.

We, the Liberal party of Canada, in convention assembled declare:

That the customs tariff of the Dominion should be based, not as it now is, upon the protective principle, but upon the requirements of the public service.

That the existing tariff, founded upon an unsound principle and used as it has been by the Government as a corrupting agency, wherewith to keep themselves in office, has developed monopolies, trusts and combina-

leveloped monopolies, trusts and combina-

ions; It has decreased the value of farm and It has decreased the value of farm and other landed property;
It has oppressed the masses to the enrichment of the few;
It has checked immigration;
It has made great loss of population;
It has impeded commerce;
It has discriminated against Great Britain.

It has impeded commerce:

It has discriminated against Great Britain.

In these, and in many other ways, it has occasioned great public and private injury, all of which evils must continue to grow in intensity so long as the present tariff system remains in force.

That the highest interests of Canada demand a removal of this obstacle to our country's progress, by the adoption of a sound fiscal policy, which, while not doing injustice to any class, will promote domestic and foreign trade and hasten the return of prosperity to our people.

That to that end, the tariff should be reduced to the needs of honest, economical and efficient government.

That it should be so adjusted as to make free, or to bear as lightly as possible upon the necessaries of life and should be so arranged as to promote freer trade with the whole world, more particularly Great Britain and the United States.

We believe that the results of the protective system have grievously disappointed thousands of persons who honeatly supported it, and that the country in the light of experience is now prepared to declare for a sound fiscal policy.

We denounce the principle of protection to the We denounce the principle of protection as radically unseund and unjust to the masses of the people, and we declare our conviction that any tariff changes based on that principle must fail to afford any substantial relief from the burdens under which the country labors.

This issue we unhesitatingly accept and upon it we await with the fullest condence the verdict of the electors of Canada.
